KLA Corporation Reports Fiscal 2026 Third Quarter Results

- Total revenues were \$3.415 billion, above the midpoint of the guidance range of \$3.35 billion +/- \$150 million;
- GAAP diluted EPS was \$9.12 and non-GAAP diluted EPS was \$9.40, both above the midpoints of the respective guidance ranges;
- Cash flow from operating activities for the quarter and last twelve months were \$707.5 million and \$4.40 billion, respectively, and free cash flow was \$622.3 million and \$4.01 billion, respectively;
- Capital returns for the quarter and last twelve months were \$874.8 million and \$3.15 billion, respectively; and
- The Board of Directors approved an increase to the quarterly dividend level to \$2.30 per share beginning with the dividend expected to be declared in May 2026 and an additional \$7 billion for repurchases of our common stock.

MILPITAS, Calif., April 29, 2026 - [KLA Corporation](#) (NASDAQ: KLAC) today announced financial and operating results for its third quarter of fiscal year 2026, which ended on March 31, 2026, and reported GAAP net income of \$1.20 billion and GAAP net income per diluted share of \$9.12 on revenues of \$3.415 billion.

“KLA delivered strong March quarter results exceeding the midpoint of our guidance ranges on both revenue and earnings per share. Our business momentum remains robust, and we are highly confident in our outlook for calendar year 2026,” said Rick Wallace, president and CEO of KLA Corporation. “At our recent Investor Day, we highlighted KLA’s critical role as a key enabler of the AI ecosystem and our continued benefits from the global AI infrastructure buildout across all major growth vectors, including foundry/logic, memory, advanced packaging, and services. KLA’s market leadership was further reinforced by recently published third-party industry reports showing continued market share momentum in process control. Our recent capital return actions, including the 17th consecutive annual dividend increase and an additional \$7 billion stock repurchase authorization, underscore our confidence in KLA’s durable value creation and the 2030 target model we have outlined.”

Note Regarding Forward-Looking Statements:

Statements in this press release other than historical facts, such as statements pertaining to the amount and timing of dividends, the amount and timing of share repurchases, total revenues, GAAP and non-GAAP gross margin and GAAP and non-GAAP diluted EPS for the quarter ending June 30, 2026, are forward-looking statements and are subject to the Safe Harbor provisions created by the Private Securities Litigation Reform Act of 1995. These forward-looking statements are based on current information and expectations and involve a number of risks and uncertainties. Actual results may differ materially from those projected in such statements due to various factors, including, but not limited to: our vulnerability to a weakening in the condition of the financial markets and the global economy; risks related to our international operations; evolving Bureau of Industry and Security of the U.S. Department of Commerce rules and regulations and their impact on our ability to sell products to and provide services to certain customers in China; tariffs and other trade restrictions; costly intellectual property disputes that could result in our inability to sell or use the challenged technology; risks related to the legal, regulatory and tax environments in which we conduct our business; differing stakeholder expectations, requirements and attention to environment, social and governance ("ESG") matters and the resulting costs, risks and impact on our business; unexpected delays, difficulties and expenses in executing against our environmental, climate, or other ESG targets, goals and commitments; our ability to attract, retain and motivate key personnel; our vulnerability to disruptions and delays at our third-party service providers; cybersecurity threats, cyber incidents affecting our and our business partners' systems and networks; our inability to access critical information in a timely manner due to system failures; risks related to acquisitions, integrations, strategic alliances or collaborative arrangements; climate change, earthquake, flood or other natural catastrophic events, public health crises or terrorism and the adverse impact on our business operations; the war between Ukraine and Russia, the armed conflict in Iran and elsewhere in the Middle East, and the significant military activity in those regions; lack of insurance for losses and interruptions caused by terrorists and acts of war, and our self-insurance of certain risks including earthquake risk; risks related to fluctuations in foreign currency exchange rates; risks related to fluctuations in interest rates and the market values of our portfolio investments; risks related to tax and regulatory compliance audits; any change in taxation rules or practices and our effective tax rate; compliance costs with federal securities laws, rules, regulations, NASDAQ requirements, and evolving accounting standards and practices; ongoing changes in the technology industry, and the semiconductor industry in particular, including future growth rates, pricing trends in end-markets, or changes in customer capital spending patterns; our vulnerability to a highly concentrated customer base; the cyclical nature of the industries in which we operate; our ability to timely develop new technologies and products that successfully address changes in the industry; risks related to artificial intelligence; our ability to maintain our technology advantage and protect proprietary rights; our ability to compete in the industry; availability and cost of the materials and parts used in the production of our products; our ability to operate our business in accordance with our business plan; risks related to our debt and leveraged capital structure; we may not be able to declare cash dividends at all or in any particular amount; liability to our customers under indemnification provisions if our products fail to operate properly or contain defects or our customers are sued by third parties due to our products; our government funding for research and development is subject to audit, and potential termination or penalties; we may incur significant restructuring charges or other asset impairment charges or inventory write offs; we are subject to risks related to receivables factoring arrangements and compliance risk of certain settlement agreements with the government; and risks related to the Court of Chancery of the State of Delaware being the sole and exclusive forum for certain actions and proceedings. For other factors that may cause actual results to differ materially from those projected and anticipated in forward-looking statements in this press release, please refer to KLA's Annual Report on Form 10-K for the year ended June 30, 2025, and other subsequent filings with the Securities and Exchange Commission (including, but not limited to, the risk factors described therein). KLA assumes no obligation to, and does not currently intend to, update these forward-looking statements.

The non-GAAP and supplemental information provided in this press release is a supplement to, and not a substitute for, KLA's financial results presented in accordance with United States GAAP.

To supplement our Condensed Consolidated Financial Statements presented in accordance with GAAP, we provide certain non-GAAP financial information, which is adjusted from results based on GAAP to exclude certain gains, costs and expenses, as well as other supplemental information. The non-GAAP and supplemental information is provided to enhance the user's overall understanding of our operating performance and our prospects in the future. Specifically, we believe that the non-GAAP information, including non-GAAP net income, non-GAAP net income per diluted share, non-GAAP gross margin and free cash flow, provides useful measures to both management and investors regarding financial and business trends relating to our financial performance by excluding certain costs and expenses that we believe are not indicative of our core operating results to help investors compare our operating performances with our results in prior periods as well as with the performance of other companies. The non-GAAP information is among the budgeting and planning tools that management uses for future forecasting. However, because there are no standardized or generally accepted definitions for most non-GAAP financial metrics, definitions of non-GAAP financial metrics are inherently subject to significant discretion (for example, determining which costs and expenses to exclude when calculating such a metric). As a result, non-GAAP financial metrics may be defined very differently from company to company, or even from period to period within the same company, which can potentially limit the usefulness of such information to an investor. The presentation of non-GAAP and supplemental information is not meant to be considered in isolation or as a substitute for results prepared and presented in accordance with United States GAAP. The following are descriptions of the adjustments made to reconcile GAAP net income to non-GAAP net income:

- a. Acquisition-related charges primarily include amortization of intangible assets and write-offs due to abandonment of in-process research and development projects. Although we exclude the effect of amortization of all acquired intangible assets from these non-GAAP financial measures, management believes that it is important for investors to understand that such intangible assets were recorded as part of purchase price accounting arising from acquisitions, and such amortization of intangible assets related to past acquisitions will recur in future periods until such intangible assets have been fully amortized. Investors should note that the use of these intangible assets contributed to our revenues earned during the periods presented and are expected to contribute to our future period revenues as well.
- b. Restructuring, severance and other charges primarily include costs associated with employee severance.
- c. Impairment of goodwill and purchased intangible assets in the nine months ended March 31, 2025 included non-cash expense recognized as a result of the company's testing for goodwill impairment and long-lived assets impairment, which resulted from the continued deterioration of the long-term forecast for our PCB business. Management believes that it is appropriate to exclude these impairment charges as they are not indicative of ongoing operating results and therefore limit comparability. Management also believes excluding this item helps investors compare our operating performance with our results in prior periods as well as with the performance of other companies.
- d. Income tax effect of non-GAAP adjustments includes the income tax effects of the excluded items noted above.
- e. Discrete tax items in the nine months ended March 31, 2026 and in the three months ended December 31, 2025 include the recognition or adjustment of a deferred tax liability for withholding taxes on future remittance of previously taxed income as a result of new tax legislation. Discrete tax items in the three months ended December 31, 2025 also include an adjustment of certain deferred tax benefits for a change in tax rate due to change in tax incentives. Discrete tax items in the three months ended March 31, 2025 include a deferred tax impact relating to the amortization of certain intellectual property as a result of an internal restructuring of ownership rights to better align with how our business operates. Discrete tax items in the nine months ended March 31, 2025 also include the recognition of a net deferred tax asset on foreign currency gains/losses resulting from new tax legislation. Discrete tax items in all periods presented include a tax impact relating to the amortization of tax benefits from internal restructuring or similar tax benefits recorded in other periods.
