AMERICAN TOWER CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED AND CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(tabular amounts in millions, unless otherwise noted)

1. BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

The accompanying consolidated and condensed consolidated financial statements have been prepared by American Tower Corporation (together with its subsidiaries, “ATC” or the “Company”) pursuant to the rules and regulations of the Securities and Exchange Commission (the “SEC”). The financial information included herein is unaudited. However, the Company believes that all adjustments, which are of a normal and recurring nature, considered necessary for a fair presentation of its financial position and results of operations for such periods have been included. The consolidated and condensed consolidated financial statements and related notes should be read in conjunction with the Company’s Annual Report on Form 10-K for the year ended December 31, 2024 (the “2024 Form 10-K”). The results of operations for the three and nine months ended September 30, 2025 are not necessarily indicative of the results that may be expected for the entire year.

Principles of Consolidation and Basis of Presentation—The accompanying consolidated and condensed consolidated financial statements include the accounts of the Company and those entities in which it has a controlling interest. Investments in entities that the Company does not control are accounted for using the equity method or as investments in equity securities, depending upon the Company’s ability to exercise significant influence over operating and financial policies. All intercompany accounts and transactions have been eliminated.

As of September 30, 2025, the Company holds (i) a 52% controlling interest in subsidiaries whose holdings consist of the Company’s operations in France, Germany and Spain (such subsidiaries collectively, “ATC Europe”) (Allianz and La Caisse (each as defined in note 11) hold the noncontrolling interests), (ii) a 51% controlling interest in a joint venture whose holdings consist of the Company’s operations in Bangladesh (Confidence Tower Holdings Ltd. (“Confidence Group”) holds the noncontrolling interest) and (iii) a controlling common equity interest of approximately 71% in the Company’s U.S. data center business (Stonepeak (as defined and further discussed in note 11) holds approximately 29% of the outstanding common equity and 100% of the outstanding mandatorily convertible preferred equity). As of September 30, 2025, ATC Europe holds an 87% and an 83% controlling interest in subsidiaries that consist of the Company’s operations in Germany and Spain, respectively (PGGM holds the noncontrolling interests). See note 11 for a discussion of changes to the Company’s noncontrolling interests during the nine months ended September 30, 2025 and 2024.

Change in Reportable Segments— During the fourth quarter of 2024, following recent divestitures, including the ATC TIPL Transaction (as defined in note 16), and changes to its organizational structure, the Company’s Asia-Pacific (“APAC”) property segment and its Africa property segment were combined into the Africa & APAC property segment. As a result, the Company has six reportable segments: U.S. & Canada property (which includes all assets in the United States and Canada, other than the Company’s data center facilities and related assets), Africa & APAC property, Europe property, Latin America property, Data Centers and Services, which are discussed further in note 15. The change in reportable segments had no impact on the Company’s consolidated financial statements for any periods. Historical financial information included in this Quarterly Report on Form 10-Q (this “Quarterly Report”) has been adjusted to reflect the change in reportable segments.

Sale of South Africa Fiber—On March 6, 2025, the Company, through its subsidiary ATC South Africa Wireless Infrastructure Proprietary Limited, completed the sale of its fiber assets in South Africa (“South Africa Fiber”) for total consideration of 2.5 billion South African Rand (“ZAR”) (approximately \$137.7 million at the date of closing), resulting in a gain on the sale of approximately \$53.6 million, which was included in Other operating income in the accompanying consolidated statements of operations. As a result of the transaction, the Company disposed of \$6.1 million of goodwill based on the relative fair value of South Africa Fiber and the portion of the applicable goodwill reporting unit that was expected to be retained. Prior to the divestiture, South Africa Fiber’s operating results were included within the Africa & APAC property segment.

Proceeds received at closing	\$	137.7
Net assets at closing		(84.1)
Total gain on sale included in Other operating expenses (1)	\$	<u>53.6</u>

(1) Excludes an estimated 377.9 million ZAR (approximately \$20.8 million at the date of closing) of taxes, of which 131.5 million ZAR (approximately \$7.6 million) remains payable as of September 30, 2025.

(tabular amounts in millions, unless otherwise noted)

Significant Accounting Policies—The Company’s significant accounting policies are described in note 1 to the Company’s consolidated financial statements included in the 2024 Form 10-K. There have been no material changes to the Company’s significant accounting policies during the nine months ended September 30, 2025, other than those noted below.

Cash and Cash Equivalents and Restricted Cash—The reconciliation of cash and cash equivalents and restricted cash reported within the applicable balance sheet that sum to the total of the same such amounts shown in the statements of cash flows is as follows:

	Nine Months Ended September 30,	
	2025	2024
Cash and cash equivalents	\$ 1,950.7	\$ 2,150.3
Restricted cash	150.1	131.9
Total cash, cash equivalents and restricted cash	\$ 2,100.8	\$ 2,282.2

Revenue—The Company’s revenue is derived from leasing the right to use its communications sites, the land on which the sites are located, the land underlying its customers’ sites and the space in its data center facilities (the “lease component”) and from the reimbursement of costs incurred by the Company in operating the communications sites and data center facilities and supporting its customers’ equipment as well as other services and contractual rights (the “non-lease component”). Most of the Company’s revenue is derived from leasing arrangements and is accounted for as lease revenue unless the timing and pattern of revenue recognition of the non-lease component differs from the lease component. If the timing and pattern of the non-lease component revenue recognition differs from that of the lease component, the Company separately determines the stand-alone selling prices and pattern of revenue recognition for each performance obligation. Revenue related to distributed antenna system (“DAS”) networks and fiber and other related assets results from agreements with customers that are generally not accounted for as leases.

Non-lease property revenue—Non-lease property revenue consists primarily of revenue generated from DAS networks, fiber and other property related revenue. DAS networks and fiber arrangements generally require that the Company provide the tenant the right to use available capacity on the applicable communications infrastructure. Performance obligations are satisfied over time for the duration of the arrangements. Non-lease property revenue also includes revenue generated from interconnection offerings in the Company’s data center facilities. Interconnection offerings are generally contracted on a month-to-month basis and are cancellable by the Company or the data center customer at any time. Performance obligations are satisfied over time for the duration of the arrangements. Other property related revenue streams, which include site inspections, are not material on either an individual or consolidated basis. There were no material changes in the receivables, contract assets and contract liabilities from contracts with customers for the three and nine months ended September 30, 2025.

Services revenue—The Company offers tower-related services in the United States. These services include site application, zoning and permitting (“AZP”), structural and mount analyses, and construction management. There is a single performance obligation related to AZP and construction management, and revenue is recognized over time based on milestones achieved, which are determined based on costs expected to be incurred. Structural and mount analyses services may have more than one performance obligation, contingent upon the number of contracted services. Revenue is recognized at the point in time the services are completed.

A summary of revenue disaggregated by source and geography is as follows:

Property revenue for the three months ended September 30, 2025 and 2024 includes straight-line revenue of \$27.7 million and \$68.5 million, respectively. Property revenue for the nine months ended September 30, 2025 and 2024 includes straight-line revenue of \$73.0 million and \$221.7 million, respectively.

The Company actively monitors the creditworthiness of its customers. In recognizing customer revenue, the Company assesses the collectibility of both the amounts billed and the portion recognized in advance of billing on a straight-line basis. This assessment takes customer credit risk and business and industry conditions into consideration to ultimately determine the collectibility of the amounts billed. To the extent the amounts, based on management's estimates, may not be collectible, revenue recognition is deferred until such point as collectibility is determined to be reasonably assured.

Accounting Standards Updates—In December 2023, the FASB issued guidance which requires public entities to provide enhanced income tax disclosures on an annual basis. The new guidance requires an expanded rate reconciliation and the disaggregation of cash taxes paid by U.S. federal, U.S. state and foreign jurisdictions. The updated guidance is effective for fiscal years beginning after December 15, 2024, with early adoption permitted. The Company is currently evaluating the impact of this guidance on its consolidated financial statements and related disclosures.

In November 2024, the FASB issued guidance which is intended to improve the disclosures about a public business entity's expenses, primarily through additional disclosures about the types of expenses (including purchases of inventory, employee compensation, depreciation, amortization, and depletion) included in each relevant expense caption presented on the face of the income statement within continuing operations. The guidance is effective on a prospective basis, with the option for retrospective application, for annual periods beginning after December 15, 2026 and interim reporting periods beginning after December 15, 2027, with early adoption permitted. The Company is currently evaluating the impact of this guidance on its consolidated financial statements and related disclosures.

2. PREPAID AND OTHER CURRENT ASSETS

Prepaid and other current assets consisted of the following:

	As of	
	September 30, 2025	December 31, 2024
Prepaid assets	\$ 111.5	\$ 82.6
Prepaid income tax	103.4	77.2

Other miscellaneous current assets (1)	219.7	126.0
Prepaid and other current assets	<u>\$ 697.6</u>	<u>\$ 530.6</u>

(1) As of September 30, 2025 includes claims against balances in escrow of \$81.9 million.

3. LEASES

The Company determines if an arrangement is a lease at the inception of the agreement. The Company considers an arrangement to be a lease if it conveys the right to control the use of the communications infrastructure or ground space underneath communications infrastructure for a period of time in exchange for consideration. The Company is both a lessor and a lessee.

During the nine months ended September 30, 2025, the Company made no changes to the methods described in note 4 to its consolidated financial statements included in the 2024 Form 10-K. As of September 30, 2025, the Company does not have any material related party leases as either a lessor or a lessee. To the extent there are any intercompany leases, these are eliminated in consolidation.

Lessor—Historically, the Company has been able to successfully renew its applicable leases as needed to ensure continuation of its revenue. Accordingly, the Company assumes that it will have access to the communications infrastructure or ground space underlying its sites when calculating future minimum rental receipts through the end of the respective terms. Future minimum rental receipts expected under non-cancellable operating lease agreements as of September 30, 2025 were as follows:

Fiscal Year	Amount (1) (2)
Remainder of 2025	\$ 2,156.1
2026	8,438.5
2027	8,242.9
2028	6,890.5
2029	6,505.6
Thereafter	22,157.0
Total	<u>\$ 54,390.6</u>

(1) Balances are translated at the applicable period-end exchange rate, which may impact comparability between periods.

(2) Balances represent contractual amounts owed with no adjustments made for expected collectibility.

If incentives are present in the Company's leases, they are evaluated to determine proper treatment and, to the extent present, are recorded in Other current assets and Other non-current assets in the consolidated balance sheets and amortized on a straight line basis over the corresponding lease term as a non-cash reduction to revenue. As of September 30, 2025, the remaining weighted average amortization period of the Company's lease incentives was 9 years. As of September 30, 2025, Other current assets and Other non-current assets include \$42.6 million and \$350.0 million, respectively, for lease incentives.

Lessee—The Company assesses its right-of-use asset and other lease-related assets for impairment, as described in note 1 to the Company's consolidated financial statements included in the 2024 Form 10-K. There were no material impairments recorded related to these assets during the three and nine months ended September 30, 2025 and 2024. The Company leases certain land, buildings, equipment and office space under operating leases and land and improvements, towers, equipment and vehicles under finance leases. As of September 30, 2025, operating lease assets were included in Right-of-use asset and finance lease assets were included in Property and equipment, net in the consolidated balance

(1) Other represents the goodwill associated with the sale of South Africa Fiber, which was sold during the nine months ended September 30, 2025.

The Company's other intangible assets subject to amortization consisted of the following:

	Estimated Useful Lives (years)	As of September 30, 2025			As of December 31, 2024		
		Gross Carrying Value	Accumulated Amortization	Net Book Value	Gross Carrying Value	Accumulated Amortization	Net Book Value

(1) Acquired network location intangibles are amortized over the remaining estimated useful life of the tower, taking into account residual value, generally up to 30 years, as the Company considers these intangibles to be directly related to the tower assets.

The acquired network location intangibles represent the value to the Company of the incremental revenue growth that could potentially be obtained from leasing the excess capacity on acquired tower communications infrastructure. The acquired tenant-related intangibles typically represent the value to the Company of tenant contracts and relationships in place at the time of an acquisition or similar transaction, including assumptions regarding estimated renewals. Other intangibles represent the value of acquired licenses, trade name and in place leases. In place lease value represents the fair value of costs avoided in securing data center customers, including vacancy periods, legal costs and commissions. In

NOTES TO CONSOLIDATED AND CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(tabular amounts in millions, unless otherwise noted)

place lease value also includes assumptions on similar costs avoided upon the renewal or extension of existing leases on a basis consistent with occupancy assumptions used in the fair value of other assets.

The Company amortizes its acquired intangible assets on a straight-line basis over their estimated useful lives. As of September 30, 2025, the remaining weighted average amortization period of the Company's intangible assets was 20 years. Amortization of intangible assets for the three and nine months ended September 30, 2025 was \$226.2 million and \$659.2 million, respectively. Amortization of intangible assets for the three and nine months ended September 30, 2024 was \$221.4 million and \$675.0 million, respectively. Based on current exchange rates, the Company expects to record amortization expense as follows over the remainder of the current year and the five subsequent years:

Fiscal Year	Amount
Remainder of 2025	\$ 220.9
2026	850.9
2027	834.8
2028	825.5

Current portion of long-term obligations—The Company's current portion of long-term obligations primarily includes (i) \$500.0 million aggregate principal amount of the Company's 4.400% senior unsecured notes due February 15, 2026, (ii) \$700.0 million aggregate principal amount of the Company's 1.600% senior unsecured notes due April 15, 2026, (iii) 500.0 million EUR aggregate principal amount of the Company's 1.950% senior unsecured notes due May 22, 2026 and (iv) \$600.0 million aggregate principal amount of the Company's 1.450% senior unsecured notes due September 15, 2026.

Securitized Debt—Cash flows generated by the communications sites that secure the securitized debt of the Company are only available for payment of such debt and related costs and are not available to pay the Company's other obligations or the claims of its creditors. However, subject to certain restrictions, the Company holds the right to receive the excess cash flows not needed to service the securitized debt and other obligations arising out of the securitizations. The securitized debt is the obligation of the issuers thereof or borrowers thereunder, as applicable, and their subsidiaries, and not of the Company or its other subsidiaries.

American Tower Secured Revenue Notes and Repayment of Series 2015-2 Notes—In May 2015, GTP Acquisition Partners I, LLC, one of the Company's wholly owned subsidiaries, refinanced existing debt with cash on hand and proceeds from a private issuance (the "2015 Securitization") of (i) \$350.0 million of American Tower Secured Revenue Notes, Series 2015-1, Class A, which were subsequently repaid on the June 2020 payment date, and (ii) \$525.0 million of American Tower Secured Revenue Notes, Series 2015-2, Class A (the "Series 2015-2 Notes"). On the June 2025 payment date, the Company repaid \$525.0 million aggregate principal amount outstanding under the Series 2015-2 Notes, pursuant to the terms of the agreements governing such securities. The repayment was funded with borrowings under the 2021 Multicurrency Credit Facility and cash on hand. Following such repayment, no notes were outstanding under the 2015 Securitization.

Repayments of Senior Notes

Repayment of 2.950% Senior Notes—On January 14, 2025, the Company repaid \$650.0 million aggregate principal amount of the Company's 2.950% senior unsecured notes due 2025 (the "2.950% Notes") upon their maturity. The 2.950% Notes were repaid using cash on hand and borrowings under the 2021 Multicurrency Credit Facility. Upon completion of the repayment, none of the 2.950% Notes remained outstanding.

Repayment of 2.400% Senior Notes—On March 14, 2025, the Company repaid \$750.0 million aggregate principal amount of the Company's 2.400% senior unsecured notes due 2025 (the "2.400% Notes") upon their maturity. The 2.400% Notes were repaid using proceeds from the issuance of the 4.900% Notes and the 5.350% Notes. Upon completion of the repayment, none of the 2.400% Notes remained outstanding.

Repayment of 1.375% Senior Notes—On April 3, 2025, the Company repaid 500.0 million EUR aggregate principal amount of the Company’s 1.375% senior unsecured notes due April 4, 2025 (the “1.375% Notes”) upon their maturity. The 1.375% Notes were repaid using borrowings under the 2021 Multicurrency Credit Facility and cash on hand. Upon completion of the repayment, none of the 1.375% Notes remained outstanding.

Repayment of 4.000% Senior Notes—On May 30, 2025, the Company repaid \$750.0 million aggregate principal amount of the Company’s 4.000% senior unsecured notes due June 1, 2025 (the “4.000% Notes”) upon their maturity. The 4.000% Notes were repaid using borrowings under the 2021 Credit Facility and cash on hand. Upon completion of the repayment, none of the 4.000% Notes remained outstanding.

Repayment of 1.300% Senior Notes—On September 12, 2025, the Company repaid \$500.0 million aggregate principal amount of the Company’s 1.300% senior unsecured notes due September 15, 2025 (the “1.300% Notes”) upon their maturity. The 1.300% Notes were repaid using borrowings under the 2021 Credit Facility. Upon completion of the repayment, none of the 1.300% Notes remained outstanding.

Offerings of Senior Notes

4.900% Senior Notes and 5.350% Senior Notes Offering—On March 14, 2025, the Company completed a registered public offering of \$650.0 million aggregate principal amount of 4.900% senior unsecured notes due 2030 (the “Initial 4.900% Notes”) and \$350.0 million aggregate principal amount of 5.350% senior unsecured notes due 2035 (the “Initial 5.350% Notes”). The net proceeds from this offering were approximately \$988.9 million, after deducting commissions and estimated expenses. The Company used the net proceeds to repay the 2.400% Notes, to repay existing indebtedness under the 2021 Multicurrency Credit Facility and for general corporate purposes.

On September 16, 2025, the Company completed a registered public offering of \$200.0 million aggregate principal amount through a reopening of the Initial 4.900% Notes (the “Reopened 4.900% Notes” and, collectively with the Initial 4.900% Notes, the “4.900% Notes”) and \$375.0 million aggregate principal amount through a reopening of the Initial 5.350% Notes (the “Reopened 5.350% Notes” and, collectively with the Initial 5.350% Notes, the “5.350% Notes”). The net proceeds from this offering were approximately \$587.8 million, after deducting commissions and estimated expenses. The Company used the net proceeds to repay existing indebtedness under the 2021 Credit Facility and for general corporate purposes.

3.625% Senior Notes Offering—On May 30, 2025, the Company completed a registered public offering of 500.0 million EUR (approximately \$567.4 million at the date of issuance) aggregate principal amount of 3.625% senior unsecured notes due 2032 (the “3.625% Notes,” and, collectively with the 4.900% Notes and the 5.350% Notes, the “Notes”). The net proceeds from this offering were approximately 496.8 million EUR (approximately \$563.7 million at the date of issuance), after deducting commissions and estimated expenses. The Company used the net proceeds to repay existing indebtedness under the 2021 Multicurrency Credit Facility and for general corporate purposes.

(tabular amounts in millions, unless otherwise noted)

If the Company undergoes a change of control and corresponding ratings decline, each as defined in the applicable supplemental indenture for the Notes, the Company may be required to repurchase all of the Notes at a purchase price equal to 101% of the aggregate principal amount of the Notes repurchased, plus accrued and unpaid interest (including additional interest, if any), up to but not including the repurchase date. The Notes rank equally in right of payment with all of the Company's other senior unsecured debt obligations and are structurally subordinated to all existing and future indebtedness and other obligations of its subsidiaries.

Each applicable supplemental indenture contains certain covenants that restrict the Company's ability to merge, consolidate or sell assets and its (together with its subsidiaries') ability to incur liens. These covenants are subject to a number of exceptions, including that the Company and its subsidiaries may incur certain liens on assets, mortgages or other liens securing indebtedness if the aggregate amount of indebtedness secured by such liens does not exceed 3.5x Adjusted EBITDA, as defined in the applicable supplemental indenture.

Bank Facilities

Amendments to Bank Facilities—On January 28, 2025, the Company amended its (i) \$6.0 billion senior unsecured multicurrency revolving credit facility, as amended and restated in December 2021, as further amended (the "2021 Multicurrency Credit Facility") (ii) \$4.0 billion senior unsecured revolving credit facility, as amended and restated in December 2021, as further amended (the "2021 Credit Facility") and (iii) \$1.0 billion unsecured term loan, as amended and restated in December 2021, as further amended (the "2021 Term Loan").

These amendments, among other things,

- i. extend the maturity dates of the 2021 Multicurrency Credit Facility and the 2021 Credit Facility to January 28, 2028 and January 28, 2030, respectively;
- ii. extend the maturity date of the 2021 Term Loan to January 28, 2028; and
- iii. update the Applicable Margins (as defined in the loan agreements).

2021 Multicurrency Credit Facility—During the nine months ended September 30, 2025, the Company borrowed an aggregate of \$2.4 billion, including 492.0 million EUR (\$529.1 million as of the borrowing date) and repaid an aggregate of \$2.0 billion, including 492.0 million EUR (\$549.9 million as of the repayment date) of revolving indebtedness under the 2021 Multicurrency Credit Facility. The Company used the borrowings to repay outstanding indebtedness, including the 2.950% Notes, the 1.375% Notes and the Series 2015-2 Notes, and for general corporate purposes.

2021 Credit Facility—During the nine months ended September 30, 2025, the Company borrowed an aggregate of \$2.9 billion and repaid an aggregate of \$2.1 billion of revolving indebtedness under the 2021 Credit Facility. The Company used the borrowings to repay outstanding indebtedness, including the 4.000% Notes and the 1.300% Notes, and for general corporate purposes.

As of September 30, 2025, the key terms under the 2021 Multicurrency Credit Facility, the 2021 Credit Facility and the 2021 Term Loan were as follows:

	Outstanding Principal Balance (in millions)	Undrawn letters of credit (in millions)	Maturity Date	Current margin over SOFR or EURIBOR (1)	Current commitment fee (2)
2021 Multicurrency Credit Facility	\$ 445.0	\$ 6.3	January 28, 2028 (3)	0.875%	0.100%

Bangladesh Term Loan—In March 2025, the Company entered into a 400.0 million Bangladeshi Taka (“BDT”) (approximately \$3.3 million) term loan with a maturity date that is eight years from the date of the first draw thereunder (the “Bangladesh Term Loan”). On March 24, 2025, the Company borrowed 150.0 million BDT (approximately \$1.2 million) under the Bangladesh Term Loan. The Bangladesh Term Loan bears interest at 13.50% per annum, subject to quarterly resets. Interest is payable quarterly. Any outstanding principal and accrued but unpaid interest will be due and payable in full at maturity. The Bangladesh Term Loan does not require amortization of principal and may be paid prior to maturity in whole or in part at the Company’s option without penalty or premium.

CoreSite DE1 Note—On April 1, 2025, in connection with the Company’s acquisition of a multi-tenant data center facility in Denver, Colorado, in which it previously leased space (“DE1”), the Company entered into an agreement to pay \$5.0 million of purchase price to the seller in monthly installments through March 31, 2028 (the “CoreSite DE1 Note”). The CoreSite DE1 Note accrues interest at the prime rate as announced by Bank of America, N.A plus 200 basis points. As of September 30, 2025, the interest rate was 9.50% per annum. Interest is payable monthly in arrears. Any outstanding principal and accrued but unpaid interest will be due and payable in full at maturity. The CoreSite DE1 Note may be paid prior to maturity in whole or in part at the Company’s option without penalty or premium, provided that if such prepayment is made prior to April 1, 2027, the Company is required to pay any additional interest which would have accrued under the CoreSite DE1 Note in the ordinary course through April 1, 2027.

7. FAIR VALUE MEASUREMENTS

The Company determines the fair value of its financial instruments based on the fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Below are the three levels of inputs that may be used to measure fair value:

Level 1	Quoted prices in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date.
Level 2	Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
Level 3	Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Items Measured at Fair Value on a Recurring Basis—The fair values of the Company’s financial assets and liabilities that are required to be measured on a recurring basis at fair value were as follows:

	September 30, 2025			December 31, 2024		
	Fair Value Measurements Using			Fair Value Measurements Using		
	Level 1	Level 2	Level 3	Level 1	Level 2	Level 3
Assets:						
Investments in equity securities (1)	\$ 229.1	\$ 4.0	—	\$ 98.6	\$ 5.3	—

(1) Investments in equity securities are recorded in Notes receivable and other non-current assets in the consolidated balance sheets at fair value. Unrealized holding gains and losses for equity securities are recorded in Other income (expense) in the consolidated statements of operations in the current period. During the three and nine months ended September 30, 2025 and 2024, the Company recognized unrealized gains of \$10.9 million, \$67.9 million, \$129.2 million and \$93.9 million, respectively, for equity securities held as of September 30, 2025.

Items Measured at Fair Value on a Nonrecurring Basis

Assets Held and Used—The Company’s long-lived assets are recorded at amortized cost and, if impaired, are adjusted to fair value using Level 3 inputs. There were no material long-lived asset impairments during the three and nine months ended September 30, 2025 or 2024 and there were no significant unobservable inputs used to determine the fair value of long-lived assets during the three and nine months ended September 30, 2025 or 2024.

There were no other items measured at fair value on a nonrecurring basis during the nine months ended September 30, 2025 or 2024.

Fair Value of Financial Instruments—The Company’s financial instruments for which the carrying value reasonably approximates fair value at September 30, 2025 and December 31, 2024 include cash and cash equivalents, restricted cash, accounts receivable and accounts payable. The Company’s estimates of fair value of its long-term obligations, including the current portion, are based primarily upon reported market values. For long-term debt not actively traded, fair value is estimated using either indicative price quotes or a discounted cash flow analysis using rates for debt with similar terms and maturities. As of September 30, 2025 and December 31, 2024, the carrying value of long-term obligations, including the current portion, was \$37.2 billion and \$36.5 billion, respectively. As of September 30, 2025, the fair value of long-term obligations, including the current portion, was \$36.1 billion, of which \$32.0 billion was measured using Level 1 inputs and \$4.1 billion was measured using Level 2 inputs. As of December 31, 2024, the fair value of long-term obligations, including the current portion, was \$34.6 billion, of which \$31.3 billion was measured using Level 1 inputs and \$3.3 billion was measured using Level 2 inputs.

Net Investment Hedge

Foreign Currency Debt—The Company is exposed to the impact of foreign currency exchange rate fluctuations on the value of investments in its foreign subsidiaries whose functional currencies are other than the USD. On June 1, 2025, the Company designated approximately 4.7 billion EUR (approximately \$5.3 billion at the designation date) of senior unsecured notes as a non-derivative net investment hedge on the Company’s net investments in its European subsidiaries, whose functional currency is the EUR, to mitigate against the effect of exchange rate fluctuations on the translation of foreign currency balances to the USD.

For the portion of the EUR denominated senior unsecured notes that were designated as a net investment hedge and met effectiveness requirements, the changes in carrying value of the notes attributable to the change in foreign currency spot rates were recorded as foreign currency translation adjustments in Accumulated other comprehensive loss, where they offset foreign currency translation gains and losses recorded on the Company’s net investments in its European subsidiaries. To the extent foreign currency-denominated notes designated as net investment hedges are ineffective, changes in carrying value attributable to the change in spot rates would be recorded in earnings. Changes in carrying value attributable to the change in spot rates for the portion of EUR denominated senior unsecured notes not designated as part of the net investment hedge are recorded in earnings.

The following table presents the contractual amounts of the Company's outstanding instruments:

	Designation	As of	
		September 30, 2025	December 31, 2024
Foreign currency-denominated debt (1)	Net Investment Hedge	\$ 5,455.8	\$ —

(1) During the three and nine months ended September 30, 2025, the Company recorded \$25.1 million and \$(179.5) million, respectively, of unrealized foreign currency gains (losses) related to the EUR denominated debt that was designated as a net investment hedge as a foreign currency translation adjustment in Accumulated other comprehensive loss. As of September 30, 2025, includes 4.7 billion EUR (\$5.5 billion) of outstanding EUR denominated debt designated as hedges of a portion the Company’s net investment in foreign operations. This debt matures in fiscal years 2026 through 2034.

8. INCOME TAXES

The Company provides for income taxes at the end of each interim period based on the estimated effective tax rate (“ETR”) for the full fiscal year. Cumulative adjustments to the Company’s estimate are recorded in the interim period in which a change in the estimated annual ETR is determined. Under the provisions of the Internal Revenue Code of 1986, as amended, the Company may deduct earnings distributed to stockholders against the income generated by its real estate investment trust (“REIT”) operations. The Company continues to be subject to income taxes on the income of its domestic taxable REIT subsidiaries and income taxes in foreign jurisdictions where it conducts operations.

On July 4, 2025, the One Big Beautiful Bill (“OBBB Act”), which includes a broad range of tax reform provisions, was signed into law in the United States. The Company does not expect the OBBB Act will have a material impact on its estimated annual effective tax rate in 2025.

The Company provides valuation allowances if, based on the available evidence, it is more likely than not that some or all of the deferred tax assets will not be realized. Management assesses the available evidence to estimate if sufficient future taxable income will be generated to use the existing deferred tax assets. Valuation allowances may be reversed if, based on changes in facts and circumstances, the net deferred tax assets have been determined to be realizable.

The decrease in the income tax provision during the three months ended September 30, 2025 was primarily attributable to the benefit from the application of a tax law change in Germany and a decrease in tax expense attributable to

AMERICAN TOWER CORPORATION AND SUBSIDIARIES

(tabular amounts in millions, unless otherwise noted)

unrealized gains from equity securities in the United States. The decrease in the income tax provision during the nine months ended September 30, 2025 was primarily attributable to the benefit from the application of a tax law change in Germany, partially offset by increased earnings in certain foreign jurisdictions, taxes incurred as a result of the sale of South Africa Fiber, and additions to reserves for uncertain tax positions.

As of September 30, 2025 and December 31, 2024, the total unrecognized tax benefits that would impact the ETR, if recognized, were approximately \$131.4 million and \$101.3 million, respectively. The amount of unrecognized tax benefits during the three and nine months ended September 30, 2025 includes (i) additions to the Company's existing tax positions of \$18.1 million and \$40.1 million, respectively, (ii) additions due to foreign currency exchange rate fluctuations of \$1.9 million and \$9.9 million, respectively, (iii) reductions due to the expiration of statutes of limitation of \$0.8 million and \$14.1 million, respectively, and (iv) reductions to the Company's prior year tax positions and settlements of \$5.8 million during the nine months ended September 30, 2025. Unrecognized tax benefits are expected to change over the next 12 months if certain tax matters ultimately settle with the applicable taxing jurisdiction during this time frame, as described in note 12 to the Company's consolidated financial statements included in the 2024 Form 10-K. The impact of the amount of these changes to previously recorded uncertain tax positions could range from zero to \$16.0 million.

The Company recorded the following penalties and income tax-related interest expense during the three and nine months ended September 30, 2025 and 2024:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2025	2024	2025	2024
Penalties and income tax-related interest expense	\$ 11.5	\$ 12.4	\$ 22.8	\$ 21.9

As of September 30, 2025 and December 31, 2024, the total amount of accrued income tax related interest and penalties included in the consolidated balance sheets were \$81.2 million and \$58.5 million, respectively.

9. STOCK-BASED COMPENSATION

Summary of Stock-Based Compensation Plans—The Company maintains equity incentive plans that provide for the grant of stock-based awards to its directors, officers and employees. The Company's 2007 Equity Incentive Plan, as amended (the "2007 Plan"), provides for the grant of non-qualified and incentive stock options, as well as restricted stock units, restricted stock and other stock-based awards. Exercise prices for non-qualified and incentive stock options are not less than the fair value of the underlying common stock on the date of grant. Equity awards typically vest ratably. Awards granted prior to March 10, 2023 generally vest over four years for time-based restricted stock units ("RSUs") and stock options. In December 2022, the Company's Compensation Committee changed the terms of its awards to generally vest over three years. The change in vesting terms is applicable for new awards granted beginning on March 10, 2023 and does not change the vesting terms applicable to grants awarded prior to March 10, 2023. Performance-based restricted stock units ("PSUs") generally vest over three years. Stock options generally expire ten years from the date of grant. As of September 30, 2025, the Company had the ability to grant stock-based awards with respect to an aggregate of 2.7 million shares of common stock under the 2007 Plan. In addition, the Company maintains an employee stock purchase plan (the "ESPP") pursuant to which eligible employees may purchase shares of the Company's common stock on the last day of each bi-annual offering period at a 15% discount from the lower of the closing market value on the first or last day of such offering period. The offering periods run from June 1 through November 30 and from December 1 through May 31 of each year.

During the three and nine months ended September 30, 2025 and 2024, the Company recorded the following stock-based compensation expense in selling, general, administrative and development expense:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2025	2024	2025	2024
Stock-based compensation expense (1)	\$ 41.9	\$ 43.7	\$ 142.6	\$ 150.8

AMERICAN TOWER CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED AND CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(tabular amounts in millions, unless otherwise noted)

(1) For the nine months ended September 30, 2025, includes the reversal of \$7.1 million of previously recognized stock-based compensation expense associated with awards forfeited in connection with the departure of the Company's former Executive Vice President and President, APAC due to such role being eliminated. For the three and nine months ended September 30, 2024, excludes \$6.8 million and \$10.9 million, respectively, of stock-based compensation expense related to ATC TIPL, which is included in Loss from discontinued operations, net of taxes in the accompanying consolidated statements of operations.

Stock Options—As of September 30, 2025, there was no unrecognized compensation expense related to unvested stock options.

The Company's option activity for the nine months ended September 30, 2025 was as follows (shares disclosed in full amounts):

	Number of Options
Outstanding as of January 1, 2025	416,672
Exercised	(280,049)
Forfeited	—
Expired	—
Outstanding as of September 30, 2025	<u>136,623</u>

Restricted Stock Units—As of September 30, 2025, total unrecognized compensation expense related to unvested RSUs granted under the 2007 Plan was \$137.9 million and is expected to be recognized over a weighted average period of approximately two years. Vesting of RSUs is subject generally to the employee's continued employment or death, disability or qualified retirement (each as defined in the applicable RSU award agreement).

Performance-Based Restricted Stock Units—During the nine months ended September 30, 2025, the Company's Compensation Committee (the "Compensation Committee") granted an aggregate of 86,911 PSUs (the "2025 PSUs") to its executive officers and established the performance and market metrics for these awards. During the years ended December 31, 2024 and 2023, the Compensation Committee granted an aggregate of 87,550 PSUs (the "2024 PSUs") and 118,684 PSUs (the "2023 PSUs") respectively, to its executive officers and established the performance metrics for these awards. Threshold, target and maximum parameters were established for the metrics for a three-year performance period with respect to each of the 2025 PSUs, the 2024 PSUs and the 2023 PSUs and will be used to calculate the number of shares that will be issuable when each award vests, which may range from zero to 200% of the target amounts. At the end of each three-year performance period, the number of shares that vest will depend on the degree of achievement against the pre-established goals. PSUs will be paid out in common stock at the end of each performance period, subject generally to the executive's continued employment or death, disability or qualified retirement (each as defined in the applicable PSU award agreement). PSUs will accrue dividend equivalents prior to vesting, which will be paid out only in respect of shares that actually vest.

Certain of the 2025 PSUs and the 2024 PSUs include a market condition component based on relative total shareholder return as measured against the REIT constituents included in the S&P 500 Index. For the component of the 2025 PSUs and the 2024 PSUs subject to a market condition, fair value is determined using a Monte Carlo simulation model, which uses multiple input variables to determine the probability of satisfying the market condition requirements. The grant date fair value of the market condition component of the 2025 PSUs and the 2024 PSUs is \$286.21 and \$216.11, respectively.

Key assumptions used to apply this pricing model were as follows:

	2025	2024
Expected term (years)	2.81	2.81
Risk-free interest rate	3.91 %	4.31 %
Annualized volatility	27.91 %	26.75 %

Restricted Stock Units and Performance-Based Restricted Stock Units—The Company’s RSU and PSU activity for the nine months ended September 30, 2025 was as follows (shares disclosed in full amounts):

	RSUs	PSUs
Outstanding as of January 1, 2025 (1)	1,460,702	339,268
Granted (2)	618,896	86,911

Vested and deferred as of September 30, 2025 (5)	<u>21,664</u>	<u>—</u>

(1) PSUs consist of the target number of shares issuable at the end of the three-year performance period for the 2024 PSUs and the 2023 PSUs, or 87,550 shares and 118,684 shares, respectively, and the shares issuable at the end of the three-year performance period for the PSUs granted in 2022 (the “2022 PSUs”) based on achievement against the performance metrics for the three-year performance period, or 133,034 shares.

(2) PSUs consist of the target number of shares issuable at the end of the three-year performance period for the 2025 PSUs, or 86,911 shares.

(3) PSUs consist of shares vested pursuant to the 2022 PSUs. There are no additional shares to be earned related to the 2022 PSUs.

(4) PSUs consist of shares forfeited in connection with the departure of the Company’s former Executive Vice President and President, APAC due to such role being eliminated, which includes the target number of shares issuable at the end of the three-year performance period for the 2024 PSUs and the 2023 PSUs pursuant to the terms of the award agreements.

(5) Vested and deferred RSUs are related to deferred compensation for certain former employees.

During the nine months ended September 30, 2025, the Company’s Executive Vice President and President, APAC left the Company due to such role being eliminated. As the conditions for vesting pursuant to the terms of the award agreements for such executive’s 2024 PSUs and 2023 PSUs were not met, the awards were forfeited. Accordingly, the Company reversed \$5.3 million of previously recognized stock-based compensation expense associated with these awards.

During the three and nine months ended September 30, 2025, the Company recorded \$8.3 million and \$22.9 million, respectively, in stock-based compensation expense for equity awards in which the performance goals have been established and were probable of being achieved. The remaining unrecognized compensation expense related to these awards at September 30, 2025 was \$1.5 million based on the Company’s current assessment of the probability of achieving the performance goals. The weighted average period over which the cost will be recognized is approximately two years.

10. EQUITY

Sales of Equity Securities—The Company receives proceeds from sales of its equity securities pursuant to the ESPP and upon exercise of stock options granted under the 2007 Plan. During the nine months ended September 30, 2025, the Company received an aggregate of \$34.6 million in proceeds upon exercises of stock options and sales pursuant to the ESPP.

Stock Repurchase Programs—In March 2011, the Company’s Board of Directors approved a stock repurchase program, pursuant to which the Company is authorized to repurchase up to \$1.5 billion of its common stock (the “2011 Buyback”). In December 2017, the Board of Directors approved an additional stock repurchase program, pursuant to which the Company is authorized to repurchase up to \$2.0 billion of its common stock (the “2017 Buyback,” and, together with the 2011 Buyback, the “Buyback Programs”).

Under the Buyback Programs, the Company is authorized to purchase shares from time to time through open market purchases, in privately negotiated transactions not to exceed market prices, and (with respect to such open market purchases) pursuant to plans adopted in accordance with Rule 10b5-1 under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), in accordance with securities laws and other legal requirements and subject to market conditions and other factors.

During the nine months ended September 30, 2025, there were no repurchases under either of the Buyback Programs. As of September 30, 2025, the Company has repurchased a total of 14,451,325 shares of its common stock under the 2011 Buyback for an aggregate of \$1.5 billion, including commissions and fees. As of September 30, 2025, the Company has not made any repurchases under the 2017 Buyback.

(tabular amounts in millions, unless otherwise noted)

The Company expects to fund any further repurchases of its common stock through a combination of cash on hand, cash generated by operations and borrowings under its credit facilities. Repurchases under the Buyback Programs are subject to, among other things, the Company having available cash to fund the repurchases.

Distributions—During the nine months ended September 30, 2025, the Company declared or paid the following cash distributions (per share data reflects actual amounts):

Declaration Date	Payment Date	Record Date	Distribution per share	Aggregate Payment Amount (1)
Common Stock				
September 18, 2025	October 20, 2025	September 30, 2025	\$ 1.70	\$ 796.1
May 15, 2025	July 11, 2025	June 13, 2025	\$ 1.70	\$ 796.0
March 6, 2025	April 28, 2025	April 11, 2025	\$ 1.70	\$ 795.8
December 5, 2024	February 3, 2025	December 27, 2024	\$ 1.62	\$ 757.1

(1) Does not include amounts accrued for distributions payable related to unvested restricted stock units.

During the nine months ended September 30, 2024, the Company declared or paid the following cash distributions (per share data reflects actual amounts):

Declaration Date	Payment Date	Record Date	Distribution per share	Aggregate Payment Amount (1)
Common Stock				
September 12, 2024	October 25, 2024	October 9, 2024	\$ 1.62	\$ 757.0
May 23, 2024	July 12, 2024	June 14, 2024	\$ 1.62	\$ 756.7
March 14, 2024	April 26, 2024	April 12, 2024	\$ 1.62	\$ 756.5
December 13, 2023	February 1, 2024	December 28, 2023	\$ 1.70	\$ 792.7

(1) Does not include amounts accrued for distributions payable related to unvested restricted stock units.

The Company accrues distributions on unvested restricted stock units, which are payable upon vesting. As of September 30, 2025, the amount accrued for distributions payable related to unvested restricted stock units was \$18.5 million. During the nine months ended September 30, 2025 and 2024, the Company paid \$12.1 million and \$11.0 million of distributions upon the vesting of restricted stock units, respectively. To maintain its qualification for taxation as a REIT, the Company expects to continue paying distributions, the amount, timing and frequency of which will be determined, and subject to adjustment, by the Company’s Board of Directors.

11. NONCONTROLLING INTERESTS

European Interests—As of September 30, 2025, ATC Europe consists of the Company’s operations in France, Germany and Spain. The Company currently holds a 52% controlling interest in ATC Europe, with Caisse de dépôt et placement du Québec (“La Caisse”) and Allianz insurance companies and funds managed by Allianz Capital Partners GmbH, including the Allianz European Infrastructure Fund (collectively, “Allianz”) holding 30% and 18% noncontrolling interests, respectively. ATC Europe holds a 100% interest in the subsidiaries that consist of the Company’s operations in France and an 87% and an 83% controlling interest in the subsidiaries that consist of the Company’s operations in Germany and Spain, respectively, with PGGM holding a 13% and a 17% noncontrolling interest in each respective subsidiary.

Bangladesh Partnership—In 2021, the Company acquired a 51% controlling interest in Kirtonkhola Tower Bangladesh Limited (“KTBL”). Confidence Group holds a 49% noncontrolling interest in KTBL.

Stonepeak Transaction—In 2022, the Company entered into agreements pursuant to which certain investment vehicles affiliated with Stonepeak Partners LP (such investment vehicles, collectively, “Stonepeak”) acquired a noncontrolling ownership interest in the Company’s U.S. data center business, through an investment in common equity and mandatorily convertible preferred equity.

(tabular amounts in millions, unless otherwise noted)

As of September 30, 2025, the Company holds a common equity interest of approximately 71% in its U.S. data center business, with Stonepeak holding approximately 29% of the outstanding common equity and 100% of the outstanding mandatorily convertible preferred equity. On a fully converted basis, which is expected to occur four years from August 2022, and on the basis of the currently outstanding equity, the Company will hold a controlling ownership interest of approximately 64%, with Stonepeak holding approximately 36%. The mandatorily convertible preferred equity, which accrues dividends at 5.0%, will convert into common equity on a one for one basis, subject to adjustment that will be measured upon conversion.

Dividends to noncontrolling interests—Certain of the Company’s subsidiaries may, from time to time, declare dividends. During the nine months ended September 30, 2025, the Company’s U.S. data center business declared distributions of \$34.5 million related to the outstanding Stonepeak mandatorily convertible preferred equity (the “Stonepeak Preferred Distributions”). As of September 30, 2025, the amount accrued for Stonepeak Preferred Distributions was \$11.6 million.

Beginning in January 2024, pursuant to the terms of the ownership agreement with Stonepeak, on a quarterly basis, the Company’s U.S. data center business will distribute common dividends to the Company and to Stonepeak in proportion to their respective equity interests in the Company’s U.S. data center business (the “Stonepeak Common Dividend”). During the nine months ended September 30, 2025, the Company’s U.S. data center business declared and paid distributions of \$51.4 million, related to the Stonepeak Common Dividend.

During the nine months ended September 30, 2025, pursuant to the terms of the ownership agreements, ATC Europe C.V., one of the Company’s subsidiaries in the Netherlands, declared and paid a dividend of 70.9 million EUR (approximately \$82.1 million at the date of payment) to the Company, La Caisse and Allianz in proportion to their respective equity interests in ATC Europe C.V.

During the nine months ended September 30, 2025, pursuant to the terms of the ownership agreements, AT Iberia C.V., one of the Company’s subsidiaries in Spain, declared and paid a dividend of 87.3 million EUR (approximately \$101.1 million at the date of payment) to ATC Europe and PGGM in proportion to their respective equity interests in AT Iberia C.V.

The changes in noncontrolling interests were as follows:

	Nine Months Ended September 30,	
	2025	2024
Balance as of January 1,	\$ 6,266.5	\$ 6,667.2
Net income attributable to noncontrolling interests	82.9	24.3

13. COMMITMENTS AND CONTINGENCIES

Litigation— The Company periodically becomes involved in various claims and lawsuits that are incidental to its business. While the Company’s management, after consultation with counsel, currently believes the ultimate outcome of these legal proceedings, individually and in the aggregate, will not have a material adverse impact on its consolidated financial position, results of operations or liquidity, litigation is subject to inherent uncertainties. Were an unfavorable ruling to occur, there exists the possibility of a material adverse impact on the Company’s financial condition and results of operations.

Verizon Transaction—In March 2015, the Company entered into an agreement with various operating entities of Verizon Communications Inc. (“Verizon”) that currently provides for the lease, sublease or management of approximately 11,100 wireless communications sites, which commenced on March 27, 2015. The average term of the lease or sublease for all communications sites at the inception of the agreement was approximately 28 years, assuming renewals or extensions of the underlying ground leases for the sites. The Company has the option to purchase the leased sites in tranches, subject to the applicable lease, sublease or management rights upon its scheduled expiration. Each tower is assigned to an annual tranche, ranging from 2034 to 2047, which represents the outside expiration date for the sublease rights to the towers in that tranche. The purchase price for each tranche is a fixed amount stated in the lease for such tranche plus the fair market value of certain alterations made to the related towers. The aggregate purchase option price for the towers leased and subleased is approximately \$5.0 billion. Verizon occupied the sites as a tenant for an initial term of ten years and has

AMERICAN TOWER CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED AND CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(tabular amounts in millions, unless otherwise noted)

exercised its first renewal option for a five-year term. Verizon has seven optional successive five-year terms remaining; each such term shall be governed by standard master lease agreement terms established as a part of the transaction.

AT&T Transaction—The Company has an agreement with SBC Communications Inc., a predecessor entity to AT&T Inc. (“AT&T”), that currently provides for the lease or sublease of approximately 1,600 towers, which commenced between December 2000 and August 2004. Substantially all of the towers are part of the Trust Securitizations. The average term of the lease or sublease for all sites at the inception of the agreement was approximately 27 years, assuming renewals or extensions of the underlying ground leases for the sites. The Company has the option to purchase the sites subject to the applicable lease or sublease upon its expiration. Each tower is assigned to an annual tranche, ranging from 2013 to 2032, which represents the outside expiration date for the sublease rights to that tower. The purchase price for each site is a fixed amount stated in the lease for that site plus the fair market value of certain alterations made to the related tower by AT&T. As of September 30, 2025, the Company has purchased an aggregate of approximately 800 of the subleased towers which are subject to the applicable agreement. The aggregate purchase option price for the remaining towers leased and subleased is \$1.2 billion and includes per annum accretion through the applicable expiration of the lease or sublease of a site. For the applicable sites, AT&T has the right to continue to lease space subject to a monthly fee, which shall escalate in accordance with the standard master lease agreement for the remainder of AT&T’s tenancy. AT&T shall have the right to renew each lease for up to five successive five-year terms.

Other Contingencies—The Company is subject to income tax and other taxes in the geographic areas where it holds assets or operates, and periodically receives notifications of audits, assessments or other actions by taxing authorities. Taxing authorities may issue notices or assessments while audits are being conducted. In certain jurisdictions, taxing authorities may issue assessments with minimal examination. These notices and assessments do not represent amounts that the Company is obligated to pay and are often not reflective of the actual tax liability for which the Company will ultimately be liable. In the process of responding to assessments of taxes that the Company believes are not enforceable, the Company avails itself of both administrative and judicial remedies. The Company evaluates the circumstances of each notification or assessment based on the information available and, in those instances in which the Company does not anticipate a successful defense of positions taken in its tax filings, a liability is recorded in the appropriate amount based on the underlying assessment.

14. ACQUISITIONS

Impact of current year acquisitions—The Company typically acquires communications sites and other communications infrastructure assets from wireless carriers or other tower operators and subsequently integrates those sites and related assets into its existing portfolio of communications sites and related assets. In the United States, acquisitions may also include data center facilities and related assets. The financial results of the Company’s acquisitions have been included in the Company’s consolidated statements of operations for the nine months ended September 30, 2025 from the date of the respective acquisition. The date of acquisition, and by extension the point at which the Company begins to recognize the results of an acquisition, may depend on, among other things, the receipt of contractual consents, the commencement and extent of leasing arrangements and the timing of the transfer of title or rights to the assets, which may be accomplished in phases. Communications sites acquired from communications service providers may never have been operated as a business and may instead have been utilized solely by the seller as a component of its network infrastructure. An acquisition may or may not involve the transfer of business operations or employees.

The Company evaluates each of its acquisitions under the accounting guidance framework to determine whether to treat an acquisition as an asset acquisition or a business combination. For those transactions treated as asset acquisitions, the purchase price is allocated to the assets acquired, with no recognition of goodwill.

For those acquisitions accounted for as business combinations, the Company recognizes acquisition and merger related expenses in the period in which they are incurred and services are received; for transactions accounted for as asset acquisitions, these costs are capitalized as part of the purchase price. Acquisition, disposition and merger related costs may include finder’s fees, advisory, legal, accounting, valuation and other professional or consulting fees and general administrative costs directly related to completing the transaction. Integration costs include incremental and non-recurring costs necessary to convert data and systems, retain employees and otherwise enable the Company to operate acquired businesses or assets efficiently. The Company records acquisition, disposition and merger related expenses not subject to capitalization, as well as integration costs for all transactions, in Other operating expenses in the consolidated statements of operations.

(tabular amounts in millions, unless otherwise noted)

During the three and nine months ended September 30, 2025 and 2024, the Company recorded acquisition, disposition and merger related expenses for business combinations, dispositions and non-capitalized asset acquisition costs and integration costs as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2025	2024	2025	2024
Acquisition, disposition and merger related expenses	\$ 0.0	\$ 2.1	\$ 0.4	\$ 4.0
Integration costs	\$ 2.5	\$ 1.8	\$ 3.9	\$ 6.3

During the nine months ended September 30, 2025 and 2024, the Company also recorded benefits of \$15.7 million and \$21.2 million, respectively, related to pre-acquisition contingencies and settlements.

2025 Transactions

The estimated aggregate impact of the acquisitions completed in 2025 on the Company's revenues and gross margin for the three and nine months ended September 30, 2025 was not material to the Company's operating results. Acquisitions completed during the nine months ended September 30, 2025 were included in the Company's U.S. & Canada, Europe and Data Centers property segments.

Other Acquisitions—During the nine months ended September 30, 2025, the Company acquired a total of 259 communications sites, as well as other communications infrastructure assets, data center facilities and related assets, in the United States, France and Spain for an aggregate purchase price of \$364.6 million. Of the aggregate purchase price, \$12.8 million is reflected as payable in the consolidated balance sheet as of September 30, 2025, which includes accrued contingent consideration and the CoreSite DE1 Note. These acquisitions were accounted for as asset acquisitions.

The following table summarizes the allocations of the purchase prices for the fiscal year 2025 acquisitions based upon their estimated fair value at the date of acquisition:

	Other
Current assets	\$ 6.3
Property and equipment	237.0
Intangible assets (1):	
Tenant-related intangible assets	61.1
Network location intangible assets	48.1
Other intangible assets	6.4
Other non-current assets	31.8
Current liabilities	(1.3)
Other non-current liabilities	(24.8)
Net assets acquired	364.6
Purchase price	\$ 364.6

(1) Tenant-related intangible assets and network location intangible assets are amortized on a straight-line basis over the estimated useful lives of the assets.

In addition to the acquisitions discussed above, during the nine months ended September 30, 2025, the Company purchased 100 towers in connection with the AT&T transaction described in note 13 for an aggregate purchase price of \$78.8 million.

15. BUSINESS SEGMENTS

During the fourth quarter of 2024, following recent divestitures, including the ATC TIPL Transaction, and changes to its organizational structure, the Company reviewed and changed its operating and reportable segments. The Company's Asia-Pacific property segment and Africa property segment were combined into the Africa & APAC property segment. As a result, the Company now has six reportable segments: U.S. & Canada property (which includes all assets in the United States and Canada, other than the Company's data center facilities and related assets), Africa & APAC property, Europe property, Latin America property, Data Centers and Services. The change in operating and reportable segments had no impact on the Company's consolidated financial statements for any periods. Historical financial information included in this Quarterly Report has been adjusted to reflect the change in reportable segments.

Property

Communications Sites and Related Communications Infrastructure—The Company's primary business is leasing space on multitenant communications sites to wireless service providers, radio and television broadcast companies, wireless data providers, government agencies and municipalities and tenants in a number of other industries. The Company has historically reported these operations on a geographic basis.

Data Centers—The Company's Data Centers segment relates to data center facilities and related assets that the Company owns and operates in the United States. The Data Centers segment offers different types of leased infrastructure and related services from, and requires different resources, skill sets and marketing strategies than the existing property operating segment in the U.S. & Canada.

As of September 30, 2025, the Company's property operations consisted of the following:

- U.S. & Canada: property operations in Canada and the United States;
- Africa & APAC: property operations in Bangladesh, Burkina Faso, Ghana, Kenya, Niger, Nigeria, the Philippines, South Africa and Uganda;
- Europe: property operations in France, Germany and Spain;
- Latin America: property operations in Argentina, Brazil, Chile, Colombia, Costa Rica, Mexico, Paraguay and Peru; and
- Data Centers: data center property operations in the United States.

Services

The Company's Services segment offers tower-related services in the United States, including AZP, structural and mount analyses, and construction management, which primarily support its site leasing business, including the addition of new tenants and equipment on its communications sites. The Services segment is a strategic business unit that offers different services from, and requires different resources, skill sets and marketing strategies than, the property operating segments.

The accounting policies applied in compiling segment information below are similar to those described in note 1. Among other factors, in evaluating financial performance in each business segment, management uses segment gross margin and segment operating profit. The Company defines segment gross margin as segment revenue less segment operating expenses excluding Depreciation, amortization and accretion; Selling, general, administrative and development expense; and Other operating expenses. The Company defines segment operating profit as segment gross margin less Selling, general, administrative and development expense attributable to the segment, excluding stock-based compensation expense and corporate expenses. These measures of segment gross margin and segment operating profit are also before Interest income, Interest expense, Gain (loss) on retirement of long-term obligations, Other income (expense), Net income (loss) attributable to noncontrolling interests and Income tax benefit (provision). The categories of expenses indicated above, such as depreciation, have been excluded from segment operating performance as they are not considered in the review of information or the evaluation of results by management. The Company's definition of segment operating profit aligns with the Company's definition of Adjusted EBITDA. Adjusted EBITDA is widely used in the telecommunications real estate sector to measure operating performance as depreciation, amortization and accretion may vary significantly among companies depending upon accounting methods and useful lives, particularly where acquisitions and non-operating factors are involved.

The Company's chief operating decision maker (the "CODM") is the Company's chief executive officer. The CODM uses segment gross margin and segment operating profit to evaluate the segments' operating performance, in making capital allocation decisions, and in establishing management's compensation. Additionally, the CODM uses these metrics to monitor budget versus actual results. There are no significant revenues resulting from transactions between the

Company's operating segments. All intercompany transactions are eliminated to reconcile segment results and assets to the consolidated statements of operations and consolidated balance sheets.

Summarized financial information concerning the Company's reportable segments for the three and nine months ended September 30, 2025 and 2024 is shown in the following tables. The "Other" column (i) represents amounts excluded from specific segments, such as business development operations, stock-based compensation expense and corporate expenses included in Selling, general, administrative and development expense; Other operating expenses; Interest income; Interest expense; Gain (loss) on retirement of long-term obligations; and Other income (expense), and (ii) reconciles segment operating profit to Income from continuing operations before income taxes.

16. DISCONTINUED OPERATIONS

On January 4, 2024, the Company, through its subsidiaries ATC Asia Pacific Pte. Ltd. and ATC Telecom Infrastructure Private Limited (“ATC TIPL”), entered into an agreement with Data Infrastructure Trust (“DIT”), an infrastructure investment trust sponsored by an affiliate of Brookfield Asset Management, pursuant to which DIT agreed to acquire a 100% ownership interest in ATC TIPL (the “ATC TIPL Transaction”). Per the terms of the agreement, total aggregate consideration represented up to approximately 210 billion Indian Rupees (“INR”) (approximately \$2.5 billion), including the value of the VIL OCDs and the VIL Shares (each as defined and further discussed below), payments on certain existing customer receivables, the repayment of existing intercompany debt and the repayment, or assumption, of the Company’s existing term loan in India, by DIT.

During the year ended December 31, 2024, ATC TIPL distributed approximately 29.6 billion INR (approximately \$354.1 million) to the Company, which included the value of the VIL Shares and the VIL OCDs and the satisfaction of the economic benefit associated with the rights to payments on certain existing customer receivables. The distributions were deducted from the total aggregate consideration received by the Company at closing.

The ATC TIPL Transaction received all government and regulatory approvals during the three months ended September 30, 2024, and on September 12, 2024, the Company completed the sale of ATC TIPL and received total consideration of 182 billion INR (approximately \$2.2 billion). The Company used the proceeds from the ATC TIPL Transaction to repay existing indebtedness under the 2021 Multicurrency Credit Facility.

The Company recorded a loss on the sale of ATC TIPL of \$1.2 billion during the three months ended September 30, 2024, which primarily included the reclassification of the Company’s cumulative translation adjustment in India upon exiting the market of \$1.1 billion. The loss on the sale of ATC TIPL is included in Loss from discontinued operations, net of taxes in the consolidated statements of operations for the three and nine months ended September 30, 2024.

VIL Optionally Convertible Debentures—In February 2023, and as amended in August 2023, one of the Company's customers in India, Vodafone Idea Limited ("VIL"), issued optionally convertible debentures (the "VIL OCDs") to the Company's subsidiary, ATC TIPL, in exchange for VIL's payment of certain amounts towards accounts receivables. The VIL OCDs were (a) to be repaid by VIL with interest or (b) convertible into equity of VIL. The VIL OCDs were issued for an aggregate face value of 16.0 billion INR (approximately \$193.2 million on the date of issuance). The VIL OCDs were to mature in tranches with 8.0 billion INR (approximately \$96.6 million on the date of issuance) maturing on August 27, 2023 and 8.0 billion INR (approximately \$96.6 million on the date of issuance) maturing on August 27, 2024. In August 2023, the Company amended the agreements governing the VIL OCDs to, among other items, extend the maturity of the first tranche of the VIL OCDs to August 27, 2024. The fair value of the VIL OCDs at issuance was approximately \$116.5 million. The VIL OCDs accrued interest at a rate of 11.2% annually. Interest was payable to ATC TIPL semi-annually, with the first payment received in September 2023.

On March 23, 2024, the Company converted an aggregate face value of 14.4 billion INR (approximately \$172.7 million) of VIL OCDs into 1,440 million shares of equity of VIL (the "VIL Shares").

On April 29, 2024, the Company completed the sale of 1,440 million VIL Shares at a price of 12.78 INR per share. The net proceeds for this transaction were approximately 18.0 billion INR (approximately \$216.0 million at the date of settlement) after deducting commissions and fees.

On June 5, 2024, the Company completed the sale of the remaining aggregate face value of 1.6 billion INR (approximately \$19.2 million) of the VIL OCDs. The net proceeds for this transaction, excluding accrued interest, were approximately 1.8 billion INR (approximately \$22.0 million at the date of settlement) after deducting fees.

During the nine months ended September 30, 2024, the Company recognized a gain of \$46.4 million on the sales of the VIL Shares and the VIL OCDs. The gains on the sales of the VIL Shares and the VIL OCDs are recorded in Loss from discontinued operations, net of taxes in the consolidated statements of operations for the nine months ended September 30, 2024. None of the VIL Shares nor the VIL OCDs remained outstanding.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This Quarterly Report on Form 10-Q (this "Quarterly Report") contains statements about future events and expectations, or "forward-looking statements," which relate to our goals, beliefs, strategies, plans or current expectations and other statements that are not of historical facts. For example, when we use words such as "project," "plan," "believe," "anticipate," "expect," "forecast," "estimate," "intend," "should," "would," "could," "may" or other words that convey uncertainty of future events or outcomes, we are making forward-looking statements. Certain important factors may cause actual results to differ materially from those indicated by our forward-looking statements, including those factors set forth under the caption "Risk Factors" in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2024 (the "2024 Form 10-K"). Forward-looking statements represent management's current expectations, beliefs and assumptions, and are inherently uncertain. We do not undertake any obligation to update our forward-looking statements.

The discussion and analysis of our financial condition and results of operations that follow are based upon our consolidated and condensed consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States ("GAAP"). The preparation of our financial statements requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities, revenues and expenses, and the related disclosure of contingent assets and liabilities at the date of our financial statements. Actual results may differ from these estimates and such differences could be material to the financial statements. This discussion should be read in conjunction with our consolidated and condensed consolidated financial statements herein and the accompanying notes, information set forth under the caption "Critical Accounting Policies and Estimates" in the 2024 Form 10-K, and in particular, the information set forth therein under Item 7 "Management's Discussion and Analysis of Financial Condition and Results of Operations."

During the fourth quarter of 2024, following recent divestitures, including the ATC TIPL Transaction (as defined below), and changes to our organizational structure, we reviewed and changed our reportable segments. Our APAC property segment and our Africa property segment were combined into the Africa & APAC property segment. As a result, we now report our results in six segments: U.S. & Canada property (which includes all assets in the United States and Canada, other than our data center facilities and related assets), Africa & APAC property, Europe property, Latin America property, Data Centers and Services. In evaluating financial performance in each business segment, management uses, among other factors, segment gross margin and segment operating profit (see note 15 to our consolidated and condensed consolidated financial statements included in this Quarterly Report). Historical financial information included in Management's Discussion and Analysis of Financial Condition and Results of Operations has been adjusted to reflect the change in reportable segments.

In 2023, we initiated a strategic review of our India business, as further discussed below under "Results of Operations—Loss from Discontinued Operations, Net of Taxes." The strategic review concluded in January 2024 with the signed agreement for the ATC TIPL Transaction. The ATC TIPL Transaction received all government and regulatory approvals during the three months ended September 30, 2024. On September 12, 2024, we completed the ATC TIPL Transaction and received total consideration of 182 billion INR (approximately \$2.2 billion). ATC TIPL's operating results are presented as discontinued operations. See discussion below and note 16 to our consolidated and condensed consolidated financial statements included in this Quarterly Report ("Note 16") for further discussion. Historical financial information included in Management's Discussion and Analysis of Financial Condition and Results of Operations has been adjusted to reflect the operating results of ATC TIPL as discontinued operations for all periods presented.

Overview

We are one of the largest global real estate investment trusts and a leading independent owner, operator and developer of multitenant communications real estate. Our primary business is the leasing of space on communications sites to wireless service providers, radio and television broadcast companies, wireless data providers, government agencies and municipalities and tenants in a number of other industries. In addition to the communications sites in our portfolio, we manage rooftop and tower sites for property owners under various contractual arrangements. We also hold other telecommunications infrastructure and property interests that we lease primarily to communications service providers and third-party tower operators, and, as discussed further below, we hold a portfolio of highly interconnected data center facilities and related assets in the United States. Our customers include our tenants, licensees and other payers. We refer to the business encompassing the above as our property operations, which accounted for 96% and 97% of our total revenues for the three and nine months ended September 30, 2025, respectively, and includes our U.S. & Canada property, Africa & APAC property, Europe property and Latin America property segments and Data Centers segment.

We also offer tower-related services in the United States, including site application, zoning and permitting, structural and mount analyses, and construction management, which primarily support our site leasing business, including the addition of new tenants and equipment on our sites.

The following table details the number of communications sites, excluding managed sites, that we owned or operated as of September 30, 2025:

(1) Approximately 98% of the operated towers are held pursuant to long-term finance leases, including those subject to purchase options.

As of September 30, 2025, our property portfolio included 30 operating data center facilities across 11 markets in the United States that collectively comprise approximately 3.6 million net rentable square feet (“NRSF”) of data center space, as follows:

	Number of Data Centers	Total NRSF (1) <i>(in thousands)</i>

(1) Excludes approximately 0.4 million of office and light industrial NRSF.

Sale of South Africa Fiber— On March 6, 2025, we completed the sale of our fiber assets in South Africa (“South Africa Fiber”). Prior to the divestiture, South Africa Fiber’s operating results were included within the Africa & APAC property segment.

The 2024 Form 10-K contains information regarding management’s expectations of long-term drivers of demand for our communications sites, as well as key trends, which management believes provide valuable insight into our operating and financial resource allocation decisions. The discussion below should be read in conjunction with the 2024 Form 10-K and, in particular, the information set forth therein under Item 7 “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Executive Overview.”

We are currently engaged in a legal dispute (the “Arbitration”) with one of our customers in Mexico, AT&T Comunicaciones Digitales, S. de R.L. de C.V. and related entities (collectively, “AT&T Mexico”). AT&T Mexico, which represented approximately \$300 million of tenant revenue in 2024, is challenging the calculation of the monthly lease amount established under our Master Lease Agreement with AT&T Mexico (the “MLA”), as well as certain other provisions of the MLA, seeking rent abatement both retroactively and prospectively, and had been withholding tower rents since the start of 2025. We incurred approximately \$19 million of reserves through the third quarter of 2025, and expect approximately \$30 million of reserves for the full year, related to this customer. We expect to record future reserves until the Arbitration is settled. We believe we have meritorious defenses to the claims raised in this Arbitration, are vigorously defending the full enforceability of the MLA and remain confident in the terms and conditions of the MLA. The Arbitration is scheduled for a hearing in August 2026.

On September 23, 2025, we and AT&T Mexico reached an agreement pursuant to which AT&T Mexico will remit payment of the majority of the withheld tower rents and will resume monthly payments of the majority of its owed tower rents going forward. The remainder of the outstanding receivables and the future monthly tower rent amounts not remitted directly to us will be deposited into an irrevocable escrow account, overseen by an independent trustee, to be released in accordance with a final ruling in the Arbitration or by mutual consent of us and AT&T Mexico.

In most of our markets, our tenant leases for our communications sites with wireless carriers generally have initial non-cancellable terms of five to ten years with multiple renewal terms. Accordingly, the vast majority of the revenue generated by our property operations during the nine months ended September 30, 2025 was recurring revenue that we should continue to receive in future periods. Most of our tenant leases for our communications sites have provisions that periodically increase or “escalate” the rent due under the lease, typically based on (a) an annual fixed escalation (averaging approximately 3% in the United States), (b) an inflationary index in most of our international markets, or (c) a combination of both. In addition, certain of our tenant leases provide for additional revenue primarily to cover costs (pass-through revenue), such as ground rent or power and fuel costs.

Based upon existing customer leases and foreign currency exchange rates as of September 30, 2025, we expect to generate over \$54 billion of non-cancellable customer lease revenue over future periods, before the impact of straight-line lease accounting.

The revenues generated by our property operations may be affected by cancellations of existing tenant leases. As discussed above, most of our tenant leases with wireless carriers and broadcasters are multiyear contracts, which typically are non-cancellable; however, in some instances, a lease may be cancelled upon the payment of a termination fee. Revenue lost from either tenant lease cancellations or the non-renewal of leases or rent renegotiations, which we refer to as churn, has historically not had a material adverse effect on the revenues generated by our consolidated property operations. During the nine months ended September 30, 2025, churn was approximately 2% of our tenant billings, primarily driven by churn in our U.S. & Canada property segment, as discussed below.

We expect that our churn rate in our U.S. & Canada property segment will remain elevated through 2025 due to contractual lease cancellations and non-renewals by T-Mobile, including legacy Sprint Corporation leases, pursuant to the terms of our master lease agreement with T-Mobile US, Inc. entered into in September 2020.

Non-GAAP Financial Measures

Included in our analysis of our results of operations are discussions regarding earnings before interest, taxes, depreciation, amortization and accretion, as adjusted (“Adjusted EBITDA”), Funds From Operations, as defined by the National Association of Real Estate Investment Trusts (“Nareit FFO”) attributable to American Tower Corporation common stockholders, Adjusted Funds From Operations (“AFFO”) attributable to American Tower Corporation common stockholders (“AFFO attributable to American Tower Corporation common stockholders”) and Segment gross margin.

We define Adjusted EBITDA as Net income before Income (loss) from equity method investments; Income (loss) from discontinued operations, net of taxes; Income tax benefit (provision); Other income (expense); Gain (loss) on retirement of long-term obligations; Interest expense; Interest income; Other operating income (expense), including Goodwill impairment; Depreciation, amortization and accretion; and stock-based compensation expense.

Nareit FFO attributable to American Tower Corporation common stockholders is defined as net income before gains or losses from the sale or disposal of real estate, real estate related impairment charges, real estate related depreciation, amortization and accretion, and including adjustments and distributions for unconsolidated affiliates and noncontrolling interests and adjustments for discontinued operations. In this section, we refer to Nareit FFO attributable to American Tower Corporation common stockholders as “Nareit FFO (common stockholders).”

We define AFFO attributable to American Tower Corporation common stockholders as Nareit FFO (common stockholders) before (i) straight-line revenue and expense; (ii) stock-based compensation expense; (iii) the deferred portion of income tax and other income tax adjustments; (iv) non-real estate related depreciation, amortization and accretion; (v) amortization of deferred financing costs, debt discounts and premiums and long-term deferred interest charges; (vi) other income (expense); (vii) gain (loss) on retirement of long-term obligations; and (viii) other operating income (expense); less cash payments related to capital improvements and cash payments related to corporate capital expenditures and including adjustments and distributions for unconsolidated affiliates and noncontrolling interests and adjustments for discontinued operations, which includes the impact of noncontrolling interests and discontinued operations on both Nareit FFO and the corresponding adjustments included in AFFO. In this section, we refer to AFFO attributable to American Tower Corporation common stockholders as “AFFO (common stockholders).”

We define Segment gross margin as segment revenue less segment operating expenses, excluding depreciation, amortization and accretion; selling, general, administrative and development expense; and other operating expenses.

Adjusted EBITDA, Nareit FFO (common stockholders), AFFO (common stockholders) and Segment gross margin are not intended to replace net income or any other performance measures determined in accordance with GAAP. None of Adjusted EBITDA, Nareit FFO (common stockholders), AFFO (common stockholders) or Segment gross margin represents cash flows from operating activities in accordance with GAAP and, therefore, these measures should not be considered indicative of cash flows from operating activities, as a measure of liquidity or a measure of funds available to fund our cash needs, including our ability to make cash distributions. Rather, Adjusted EBITDA, Nareit FFO (common stockholders), AFFO (common stockholders) and Segment gross margin are presented as we believe each is a useful indicator of our current operating performance. We believe that these metrics are useful to an investor in evaluating our operating performance because (1) each is a key measure used by our management team for decision making purposes and for evaluating our operating segments' performance; (2) Adjusted EBITDA is a component underlying our credit ratings; (3) Adjusted EBITDA is widely used in the telecommunications real estate sector to measure operating performance as depreciation, amortization and accretion may vary significantly among companies depending upon accounting methods and useful lives, particularly where acquisitions and non-operating factors are involved; (4) AFFO (common stockholders) is widely used in the telecommunications real estate sector to adjust Nareit FFO (common stockholders) for items that may otherwise cause material fluctuations in Nareit FFO (common stockholders) growth from period to period that would not be representative of the underlying performance of property assets in those periods; (5) Segment gross margin provides valuable insight into the site-level profitability of our assets; (6) each provides investors with a meaningful measure for evaluating our period-to-period operating performance by eliminating items that are not operational in nature; and (7) each provides investors with a measure for comparing our results of operations to those of other companies, particularly those in our industry.

Our measurement of Adjusted EBITDA, Nareit FFO (common stockholders), AFFO (common stockholders) and Segment gross margin may not, however, be fully comparable to similarly titled measures used by other companies. Reconciliations of Adjusted EBITDA, Nareit FFO (common stockholders) and AFFO (common stockholders) to net income and Segment gross margin to gross margin, the most directly comparable GAAP measures, have been included below.

Three Months Ended September 30, 2025

U.S. & Canada property segment revenue growth of \$0.8 million was attributable to:

- Tenant billings growth of \$49.7 million, which was driven by:
 - \$40.5 million due to leasing additional space on our sites (“colocations”) and amendments;
 - \$9.0 million resulting from contractual escalations, net of churn; and
 - \$1.5 million generated from sites acquired or constructed since the beginning of the prior-year period (“newly acquired or constructed sites”);
 - Partially offset by a decrease of \$1.3 million from other tenant billings;
- Partially offset by a decrease of \$48.9 million in other revenue, primarily due to a decrease of \$41.9 million due to straight-line accounting.

Segment revenue growth was not meaningfully impacted by foreign currency translation related to fluctuations in Canadian Dollar (“CAD”).

Africa & APAC property segment revenue growth of \$68.2 million was attributable to:

- Tenant billings growth of \$33.2 million, which was driven by:
 - \$14.4 million due to colocations and amendments;
 - \$10.8 million resulting from contractual escalations, net of churn;
 - \$5.1 million generated from newly acquired or constructed sites; and
 - \$2.9 million from other tenant billings;
- An increase of \$8.6 million in other revenue, primarily attributable to a decrease in revenue reserves related to a customer in Burkina Faso; and
- An increase of \$4.7 million in pass-through revenue.

Segment revenue growth included an increase of \$21.7 million, attributable to the impact of foreign currency translation, which included, among others, positive impacts of \$15.1 million related to fluctuations in Ghanaian Cedi (“GHS”), \$2.4 million related to fluctuations in Ugandan Shilling (“UGX”), \$2.1 million related to fluctuations in West African CFA Franc (“XOF”) and \$1.3 million related to fluctuations in Nigerian Naira (“NGN”).

Europe property segment revenue growth of \$30.8 million was attributable to:

- Tenant billings growth of \$10.0 million, which was driven by:
 - \$4.4 million due to colocations and amendments;
 - \$3.0 million resulting from contractual escalations, net of churn; and
 - \$2.9 million generated from newly acquired or constructed sites;
 - Partially offset by a decrease of \$0.3 million from other tenant billings;
- An increase of \$3.9 million in other revenue; and

- An increase of \$2.3 million in pass-through revenue, primarily attributable to an increase in energy costs.

Segment revenue growth included an increase of \$14.6 million attributable to the positive impact of foreign currency translation related to fluctuations in Euro (“EUR”).

Latin America property segment revenue growth of \$13.7 million was attributable to:

- Tenant billings growth of \$9.2 million, which was driven by:
 - \$6.7 million due to colocations and amendments;
 - \$3.3 million from contractual escalations, net of churn; and
 - \$0.2 million generated from newly acquired or constructed sites;
 - Partially offset by a decrease of \$1.0 million from other tenant billings; and
- An increase of \$3.5 million in pass-through revenue;
- Partially offset by a decrease of \$4.4 million in other revenue, primarily attributable to an increase in revenue reserves related to customers in Brazil and Mexico.

Segment revenue growth included an increase of \$5.4 million, attributable to the impact of foreign currency translation, which included, among others, positive impacts of \$2.6 million related to fluctuations in Brazilian Real (“BRL”), \$1.5 million related to fluctuations in Mexican Peso (“MXN”) and \$1.3 million related to fluctuations in Peruvian Sol.

Data Centers segment revenue growth of \$32.9 million was attributable to:

- An increase of \$18.3 million in rental, related and other revenue, primarily due to new lease commencements, customer expansions and rent increases upon customer renewals;
- An increase of \$9.6 million in power revenue from new lease commencements, increased power consumption and pricing increases from existing customers;
- An increase of \$3.9 million in interconnection revenue, primarily due to customer interconnection net additions and pricing increases from existing cross connects; and
- An increase of \$1.1 million in straight-line revenue.

Services segment revenue growth of \$48.7 million was primarily attributable to an increase in construction management and site application, zoning and permitting services, partially offset by a decrease in structural and mount analyses services.

Nine Months Ended September 30, 2025

U.S. & Canada property segment revenue decrease of \$19.9 million was attributable to:

- A decrease of \$159.9 million in other revenue, primarily due to a decrease of \$143.4 million due to straight-line accounting;
- Partially offset by tenant billings growth of \$140.2 million, which was driven by:
 - \$117.1 million due to colocations and amendments;
 - \$25.3 million resulting from contractual escalations, net of churn; and
 - \$4.1 million generated from newly acquired or constructed sites;
 - Partially offset by a decrease of \$6.3 million from other tenant billings.

Segment revenue decrease included a decrease of \$0.2 million attributable to the negative impact of foreign currency translation related to fluctuations in CAD.

Africa & APAC property segment revenue growth of \$141.8 million was attributable to:

- Tenant billings growth of \$98.6 million, which was driven by:
 - \$38.4 million due to colocations and amendments;
 - \$34.7 million resulting from contractual escalations, net of churn;
 - \$17.5 million generated from newly acquired or constructed sites; and
 - \$8.0 million from other tenant billings;
- An increase of \$13.0 million in other revenue, primarily attributable to a decrease in revenue reserves related to customers in Burkina Faso and Kenya; and
- An increase of \$10.2 million in pass-through revenue.

Segment revenue growth included an increase of \$20.0 million, attributable to the impact of foreign currency translation, which included, among others, positive impacts of \$12.7 million related to fluctuations in GHS, \$7.1 million related to fluctuations in UGX, \$6.8 million related to fluctuations in Kenyan Shilling and \$2.4 million related to fluctuations in XOF, partially offset by negative impacts of \$10.9 million related to fluctuations in NGN.

Europe property segment revenue growth of \$68.8 million was attributable to:

- Tenant billings growth of \$29.8 million, which was driven by:
 - \$14.9 million due to colocations and amendments;
 - \$8.1 million resulting from contractual escalations, net of churn; and
 - \$7.9 million generated from newly acquired or constructed sites;
 - Partially offset by a decrease of \$1.1 million from other tenant billings;
- An increase of \$11.5 million in pass-through revenue, primarily attributable to an increase in energy costs; and
- An increase of \$9.1 million in other revenue.

Segment revenue growth included an increase of \$18.4 million attributable to the positive impact of foreign currency translation related to fluctuations in EUR.

Latin America property segment revenue decrease of \$91.9 million was attributable to:

- A decrease of \$88.4 million, attributable to the impact of foreign currency translation, which included, among others, negative impacts of \$45.3 million related to fluctuations in BRL and \$40.3 million related to fluctuations in MXN; and
- A decrease of \$41.9 million in other revenue, primarily attributable to an increase in revenue reserves related to customers in Brazil, Mexico and Peru;
- Partially offset by:
 - Tenant billings growth of \$28.0 million, which was driven by:
 - \$20.3 million due to colocations and amendments;
 - \$10.3 million from contractual escalations, net of churn; and
 - \$0.9 million generated from newly acquired or constructed sites;
 - Partially offset by a decrease of \$3.5 million from other tenant billings; and
 - An increase of \$10.4 million in pass-through revenue.

Data Centers segment revenue growth of \$83.5 million was attributable to:

- An increase of \$49.9 million in rental, related and other revenue, primarily due to new lease commencements, customer expansions and rent increases upon customer renewals;
- An increase of \$25.0 million in power revenue from new lease commencements, increased power consumption and pricing increases from existing customers; and
- An increase of \$11.5 million in interconnection revenue, primarily due to customer interconnection net additions and pricing increases from existing cross connects;
- Partially offset by a decrease of \$2.9 million in straight-line revenue.

Services segment revenue growth of \$145.2 million was primarily attributable to an increase in construction management services, site application, zoning and permitting services and structural and mount analyses services.

Three Months Ended September 30, 2025

- The increase in U.S. & Canada property segment gross margin was primarily attributable to the increase in revenue described above and a decrease in direct expenses of \$7.5 million primarily driven by a decrease in straight-line expense.
- The increase in Africa & APAC property segment gross margin was primarily attributable to the increase in revenue described above, partially offset by an increase in direct expenses of \$12.1 million, primarily due to an increase in costs associated with pass-through revenue, including fuel and utility costs. Direct expenses were also negatively impacted by \$7.6 million from the impact of foreign currency translation.
- The increase in Europe property segment gross margin was primarily attributable to the increase in revenue described above, partially offset by an increase in direct expenses of \$4.7 million, primarily due to an increase in costs associated with pass-through revenue, including energy costs and an increase in land rent costs. Direct expenses were also negatively impacted by \$5.4 million from the impact of foreign currency translation.
- The increase in Latin America property segment gross margin was primarily attributable to the increase in revenue described above, partially offset by an increase in direct expenses of \$2.4 million, primarily due to an increase in land rent costs. Direct expenses were also negatively impacted by \$1.7 million from the impact of foreign currency translation.
- The increase in Data Centers segment gross margin was primarily attributable to the increase in revenue described above, partially offset by an increase in direct expenses of \$3.7 million, primarily due to an increase in costs associated with power revenue, including utility costs, partially offset by a decrease in property taxes.
- The increase in Services segment gross margin was primarily attributable to the increase in revenue described above, partially offset by an increase in direct expenses of \$28.9 million.

Nine Months Ended September 30, 2025

- The decrease in U.S. & Canada property segment gross margin was primarily attributable to the decrease in revenue described above, partially offset by a decrease in direct expenses of \$7.9 million, primarily driven by a decrease in straight-line expense.
- The increase in Africa & APAC property segment gross margin was primarily attributable to the increase in revenue described above, partially offset by an increase in direct expenses of \$23.4 million, primarily due to an increase in repair and maintenance spending and an increase in costs associated with pass-through revenue, including fuel and utility costs. Direct expenses also were negatively impacted by \$8.3 million from the impact of foreign currency translation.
- The increase in Europe property segment gross margin was primarily attributable to the increase in revenue described above, partially offset by an increase in direct expenses of \$19.1 million, primarily due to an increase in costs associated with pass-through revenue, including energy costs and an increase in land rent costs. Direct expenses also were negatively impacted by \$6.9 million from the impact of foreign currency translation.
- The decrease in Latin America property segment gross margin was primarily attributable to the decrease in revenue described above, partially offset by a decrease in direct expenses of \$0.9 million. Direct expenses also benefited by \$24.6 million from the impact of foreign currency translation.
- The increase in Data Centers segment gross margin was primarily attributable to the increase in revenue described above, partially offset by an increase in direct expenses of \$13.7 million, primarily due to an increase in costs associated with power revenue, including utility costs, partially offset by a decrease in property taxes. Direct expenses were benefited by a legal settlement and resolution of a utility back billing matter.
- The increase in Services segment gross margin was primarily attributable to the increase in revenue described above, partially offset by an increase in direct expenses of \$76.0 million.

Three Months Ended September 30, 2025

- Our U.S. & Canada property segment SG&A was relatively consistent as compared to the prior-year period.
- The increase in our Africa & APAC property segment SG&A was primarily driven by increased local tax and professional services costs and the negative impact of foreign currency translation, partially offset by decreased personnel and related costs.
- The increase in our Europe property segment SG&A was primarily driven by increased canceled construction costs, increased professional services costs, and the negative impact of foreign currency translation, partially offset by decreased personnel and related costs.
- The increase in our Latin America property segment SG&A was primarily driven by increased local tax and professional services costs, including legal fees in Mexico, and the negative impact of foreign currency translation, partially offset by a net decrease in bad debt expense of \$3.7 million.
- The increases in our Data Centers and Services segment SG&A were primarily driven by increased personnel and related costs to support our business.
- The decrease in other SG&A was primarily attributable to a decrease in stock-based compensation expense of \$1.8 million, partially offset by an increase in corporate SG&A, including an increase in personnel and related costs to support our business.

Nine Months Ended September 30, 2025

- The increase in our U.S. & Canada property segment SG&A was primarily driven by increased personnel and related costs and an increase in bad debt expense, partially offset by decreased professional services costs and lower canceled construction costs.
- The increase in our Africa & APAC property segment SG&A was primarily driven by increased local tax and professional services costs and the negative impact of foreign currency translation, partially offset by decreased personnel and related costs.
- The increase in our Europe property segment SG&A was primarily driven by increased canceled construction costs, increased professional services costs, and the negative impact of foreign currency translation, partially offset by decreased personnel and related costs.

- The decrease in our Latin America property segment SG&A was primarily driven by a net decrease in bad debt expense of \$2.0 million, decreased personnel and related costs, and a benefit from the impact of foreign currency translation, partially offset by increased local tax and professional services costs, including legal fees in Mexico.
- The increase in our Data Centers segment SG&A was primarily driven by increased personnel and related costs to support our business, partially offset by a legal settlement in the period.
- The increase in our Services segment SG&A was primarily driven by increased personnel and related costs to support our business.
- The decrease in other SG&A was primarily attributable to a decrease in stock-based compensation expense of \$8.2 million, primarily driven by the reversal of previously recognized stock-based compensation expense associated with awards forfeited in connection with the departure of our Executive Vice President and President, APAC due to such role being eliminated, as discussed in note 9 to our consolidated and condensed consolidated financial statements included in this Quarterly Report, and a decrease in other corporate SG&A, partially offset by an increase in personnel and related costs to support our business.

(1) Excludes the operating results of ATC TIPL, which are reported as discontinued operations. See Note 16 for further discussion.

- The increase in operating profit for the three months ended September 30, 2025 for our U.S. & Canada property segment was primarily attributable to an increase in our segment gross margin, partially offset by an increase in our segment SG&A. The decrease in operating profit for the nine months ended September 30, 2025 for our U.S. & Canada property segment was primarily attributable to a decrease in our segment gross margin and an increase in our segment SG&A.
- The increases in operating profit for the three and nine months ended September 30, 2025 for our Africa & APAC property segment, Europe property segment, Data Centers segment and our Services segment were primarily attributable to increases in our segment gross margin, partially offset by increases in our segment SG&A.
- The increase in operating profit for the three months ended September 30, 2025 for our Latin America property segment was primarily attributable to an increase in our segment gross margin, partially offset by an increase in our segment SG&A. The decrease in operating profit for the nine months ended September 30, 2025 for our Latin America property segment was primarily attributable to a decrease in our segment gross margin, partially offset by a decrease in our segment SG&A.

Depreciation, Amortization and Accretion

	Three Months Ended September 30,		Percent Increase (Decrease)	Nine Months Ended September 30,		Percent Increase (Decrease)
	2025	2024		2025	2024	
Depreciation, amortization and accretion	\$ 522.9	\$ 498.5	5 %	\$ 1,525.7	\$ 1,527.9	(0)%

The increase in depreciation, amortization and accretion expense for the three months ended September 30, 2025 was primarily attributable to the acquisition, lease or construction of new sites since the beginning of the prior-year period, which resulted in increases in property and equipment and intangible assets subject to amortization and the impact of foreign currency exchange rate fluctuations. The decrease in depreciation, amortization and accretion expense for the nine months ended September 30, 2025 was primarily attributable to foreign currency exchange rate fluctuations.

Other Operating Expense (Income)

	Three Months Ended September 30,		Percent Increase (Decrease)	Nine Months Ended September 30,		Percent Increase (Decrease)
	2025	2024		2025	2024	
Other operating expense (income)	\$ 17.4	\$ 5.1	241 %	\$ (41.9)	\$ 5.0	(938)%

The increase in other operating expense (income) during the three months ended September 30, 2025 was primarily attributable to registration fees related to our acquisition of Eaton Towers Holdings Limited in 2019 and an increase in losses on sales or disposals of assets. The change in other operating expense (income) during the nine months ended September 30, 2025 was primarily attributable to the gain on the sale of South Africa Fiber of \$53.6 million.

Total Other Expense

	Three Months Ended September 30,		Percent Increase (Decrease)	Nine Months Ended September 30,		Percent Increase (Decrease)
	2025	2024		2025	2024	
Total other expense	\$ 283.3	\$ 588.7	(52)%	\$ 1,605.8	\$ 1,117.3	44 %

Total other expense consists primarily of interest expense and realized and unrealized foreign currency gains or losses as a result of foreign currency exchange rate fluctuations primarily associated with our EUR denominated senior unsecured notes, our intercompany notes and similar unaffiliated balances denominated in a currency other than the subsidiaries' functional currencies.

The decrease in total other expense during the three months ended September 30, 2025 was primarily due to foreign currency gains of \$18.0 million in the current period, as compared to foreign currency losses of \$337.4 million in the prior-year period. Total other expense during the three months ended September 30, 2025 and 2024 includes \$10.9 million and \$67.9 million, respectively, in unrealized gains from equity securities in the United States. The increase in total other expense during the nine months ended September 30, 2025 was primarily due to an increase in foreign currency losses of \$580.3 million, partially offset by a decrease in net interest expense of \$58.8 million, primarily due to a decrease in our weighted average interest rate and our average debt outstanding. Total other expense during the nine months ended September 30, 2025 and 2024 includes \$129.2 million and \$93.9 million, respectively, in unrealized gains from equity securities in the United States.

Income Tax Provision

	Three Months Ended September 30,		Percent Increase (Decrease)	Nine Months Ended September 30,		Percent Increase (Decrease)
	2025	2024		2025	2024	
Income tax provision	\$ 37.4	\$ 122.4	(69)%	\$ 287.6	\$ 291.1	(1)%
Effective tax rate	3.9 %	22.2 %		13.8 %	12.6 %	

As a real estate investment trust for U.S. federal income tax purposes ("REIT"), we may deduct earnings distributed to stockholders against the income generated by our REIT operations. Consequently, the effective tax rate on income from continuing operations for the nine months ended September 30, 2025 and 2024 differs from the federal statutory rate.

The decrease in the income tax provision during the three months ended September 30, 2025 was primarily attributable to the benefit from the application of a tax law change in Germany and a decrease in tax expense attributable to unrealized gains from equity securities in the United States. The decrease in the income tax provision during the nine months ended September 30, 2025 was primarily attributable to the benefit from the application of a tax law change in Germany, partially offset by increased earnings in certain foreign jurisdictions, taxes incurred as a result of the sale of South Africa Fiber, and additions to reserves for uncertain tax positions.

Loss from Discontinued Operations, Net of Taxes

On January 4, 2024, we, through our subsidiaries, ATC Asia Pacific Pte. Ltd. and ATC Telecom Infrastructure Private Limited (“ATC TIPL”), entered into an agreement with Data Infrastructure Trust (“DIT”), an infrastructure investment trust sponsored by an affiliate of Brookfield Asset Management, pursuant to which DIT agreed to acquire a 100% ownership interest in ATC TIPL (the “ATC TIPL Transaction”). Per the terms of the agreement, total aggregate consideration represented up to approximately 210 billion Indian Rupees (“INR”) (approximately \$2.5 billion), including the value of the VIL OCDs and the VIL Shares (each as defined and further discussed below), payments on certain existing customer receivables, the repayment of existing intercompany debt and the repayment, or assumption, of the Company’s existing term loan in India, by DIT.

During the year ended December 31, 2024, ATC TIPL distributed approximately 29.6 billion INR (approximately \$354.1 million) to the Company, which included the value of the VIL Shares and the VIL OCDs and the satisfaction of the economic benefit associated with the rights to payments on certain existing customer receivables. The distributions were deducted from the total aggregate consideration received by the Company at closing.

The ATC TIPL Transaction received all government and regulatory approvals during the three months ended September 30, 2024. On September 12, 2024, we completed the ATC TIPL Transaction and received total consideration of 182 billion INR (approximately \$2.2 billion). We used the proceeds from the ATC TIPL Transaction to repay existing indebtedness under the 2021 Multicurrency Credit Facility. During the three months ended September 30, 2024, we recorded a loss on the sale of ATC TIPL of \$1.2 billion, which primarily included the reclassification of our cumulative translation adjustment in India upon exiting the market of \$1.1 billion.

The following table presents key components of Loss from discontinued operations, net of taxes in the consolidated statements of operations:

(1) Includes the results of operations for ATC TIPL through September 12, 2024.

Following the rulings by the Supreme Court of India regarding carriers' obligations for the adjusted gross revenue fees and charges prescribed by the court, we experienced variability and a level of uncertainty in collections in India. In the third quarter of 2022, one of our largest customers in India, Vodafone Idea Limited ("VIL"), communicated that it would make partial payments of its contractual amounts owed to us (the "VIL Shortfall"). We recorded reserves in late 2022 and the first half of 2023 for the VIL Shortfall. In the second half of 2023, VIL began making payments in full of its monthly contractual obligations owed to us. During the year ended December 31, 2023, we deferred recognition of revenue of approximately \$27.3 million, net of recoveries, related to VIL in India. During the three months ended March 31, 2024, we recognized approximately \$29.0 million of this previously deferred revenue. We have fully recognized this previously deferred revenue.

In February 2023, and as amended in August 2023, VIL issued optionally convertible debentures (the "VIL OCDs") to ATC TIPL in exchange for VIL's payment of certain amounts towards accounts receivables. The VIL OCDs were issued for an aggregate face value of 16.0 billion INR (approximately \$193.2 million on the date of issuance). On March 23, 2024, we converted an aggregate face value of 14.4 billion INR (approximately \$172.7 million) of VIL OCDs into 1,440 million shares of equity of VIL (the "VIL Shares"). On April 29, 2024, we completed the sale of 1,440 million VIL Shares at a price of 12.78 INR per share. The net proceeds for this transaction were approximately 18.0 billion INR (approximately \$216.0 million at the date of settlement) after deducting commissions and fees. On June 5, 2024, we completed the sale of the remaining aggregate face value of 1.6 billion INR (approximately \$19.2 million) of the VIL OCDs. The net proceeds for this transaction, excluding accrued interest, were approximately 1.8 billion INR (approximately \$22.0 million at the date of settlement) after deducting fees. None of the VIL Shares or the VIL OCDs remained outstanding. During the nine months ended September 30, 2024, we recognized a gain of \$46.4 million on the sales of the VIL Shares and the VIL OCDs.

(1) For the three and nine months ended September 30, 2024, includes Loss from discontinued operations, net of taxes of \$1.2 billion and \$978.3 million, respectively.

(2) There were no material impairment charges for the three and nine months ended September 30, 2025 and 2024. For the nine months ended September 30, 2025, includes a gain on the sale of South Africa Fiber of \$53.6 million.

(3) Includes distributions to noncontrolling interest holders, distributions related to the outstanding mandatorily convertible preferred equity in connection with our agreements with certain investment vehicles affiliated with Stonepeak Partners LP and adjustments for the impact of noncontrolling interests on Nareit FFO attributable to American Tower Corporation common stockholders.

(4) For the three and nine months ended September 30, 2024, includes (i) real estate related depreciation, amortization and accretion for discontinued operations of \$13.1 million and \$91.3 million, respectively, and (ii) losses from the sale or disposal of real estate and real estate related impairment charges for discontinued operations of \$1.2 billion and \$1.2 billion, respectively. For the three and nine months ended September 30, 2024, includes a loss on the sale of ATC TIPL of \$1.2 billion.

- (5) For the three and nine months ended September 30, 2025, includes adjustments for taxes paid in Singapore of \$0.3 million related to the ATC TIPL Transaction. For the nine months ended September 30, 2025 also includes adjustments for taxes paid in South Africa of \$19.6 million, which were incurred as a result of the sale of South Africa Fiber. For the three and nine months ended September 30, 2024, includes adjustments for withholding taxes paid in Singapore of \$2.9 million and \$36.4 million, respectively, which were incurred as a result of the ATC TIPL Transaction. We believe that these tax payments are nonrecurring, and do not believe these are an indication of our operating performance. Accordingly, we believe it is more meaningful to present AFFO attributable to American Tower Corporation common stockholders excluding these amounts.
- (6) Includes (gains) losses on foreign currency exchange rate fluctuations of \$(18.0) million, \$337.4 million, \$811.7 million and \$231.4 million, respectively.
- (7) Primarily includes acquisition-related costs, integration costs and disposition costs.
- (8) Includes adjustments for the impact of noncontrolling interests on other line items, excluding those already adjusted for in Nareit FFO attributable to American Tower Corporation common stockholders.
- (9) Includes the impact of discontinued operations associated with other line items, excluding the impact already included in Nareit FFO attributable to American Tower Corporation common stockholders.

The changes in net income (loss) for the three and nine months ended September 30, 2025 were primarily due to losses from discontinued operations, net of tax, as a result of the ATC TIPL Transaction in the prior year.

The increase in net income from continuing operations for the three months ended September 30, 2025 was primarily due to (i) changes in other income (expense), primarily due to foreign currency exchange rate fluctuations, (ii) an increase in segment operating profit and (iii) a decrease in the income tax provision, partially offset by (y) an increase in depreciation, amortization, and accretion and (z) an increase in other operating expense (income).

The decrease in net income from continuing operations for the nine months ended September 30, 2025 was primarily due to changes in other income (expense), primarily due to foreign currency exchange rate fluctuations, partially offset by (x) an increase in segment operating profit, (y) a decrease in interest expense and (z) changes in other operating expense (income), which included the gain on the sale of South Africa Fiber during the nine months ended September 30, 2025.

The increases in Adjusted EBITDA for the three and nine months ended September 30, 2025 were primarily attributable to increases in our gross margin, partially offset by increases in SG&A, excluding the impact of stock-based compensation expense of \$7.1 million and \$22.1 million, respectively.

The increase in AFFO attributable to American Tower Corporation common stockholders for the three months ended September 30, 2025 was primarily attributable to (i) an increase in our operating profit, excluding the impact of straight-line accounting and (ii) decreases in cash paid for interest and cash paid for income taxes, partially offset by (x) a decrease in AFFO attributable to American Tower Corporation common stockholders from discontinued operations as a result of the sale of ATC TIPL in the third quarter of 2024, (y) an increase in capital improvement capital expenditures and (z) an increase in distributions and adjustments for noncontrolling interests, including distributions to noncontrolling interest holders in our Data Centers segment.

The decrease in AFFO attributable to American Tower Corporation common stockholders for the nine months ended September 30, 2025 was primarily attributable to (i) a decrease in AFFO attributable to American Tower Corporation common stockholders from discontinued operations as a result of the sale of ATC TIPL in the third quarter of 2024, (ii) an increase in capital improvement capital expenditures, and (iii) an increase in distributions and adjustments for noncontrolling interests, including distributions to noncontrolling interest holders in our Europe property segment and Data Centers segment, partially offset by (y) an increase in our operating profit, excluding the impact of straight-line accounting and (z) a decrease in cash paid for interest.

Liquidity and Capital Resources

The information in this section updates as of September 30, 2025 the “Liquidity and Capital Resources” section of the 2024 Form 10-K and should be read in conjunction with that report.

Overview

During the nine months ended September 30, 2025, our significant financing transactions included:

- Redemption of our 2.950% senior unsecured notes due 2025 (the “2.950% Notes”), our 2.400% senior unsecured notes due 2025 (the “2.400% Notes”), our 1.375% senior unsecured notes due 2025 (the “1.375% Notes”), our 4.000% notes due 2025 (the “4.000% Notes”) and our 1.300% senior unsecured notes due 2025 (the “1.300% Notes”);
- Repayment of \$525.0 million aggregate principal amount outstanding under our Secured Tower Revenue Notes, Series 2015-2, Class A (the “Series 2015-2 Notes”);
- Registered public offering in an aggregate principal amount of \$2.1 billion, including 500.0 million EUR, of senior unsecured notes with maturities ranging from 2030 to 2035; and
- Amendment of the 2021 Multicurrency Credit Facility, the 2021 Credit Facility and the 2021 Term Loan (each as defined below) to, among other things, (i) extend the maturity dates and (ii) update the Applicable Margins (as defined in the loan agreements).

As a holding company, our cash flows are derived primarily from the operations of, and distributions from, our operating subsidiaries or funds raised through borrowings under our credit facilities and debt or equity offerings.

The following table summarizes the significant components of our liquidity (in millions):

	As of September 30, 2025	
Available under the 2021 Multicurrency Credit Facility	\$	5,555.0
Available under the 2021 Credit Facility		3,185.0
Letters of credit		(36.1)
Total available under credit facilities, net	\$	8,703.9
Cash and cash equivalents		1,950.7
Total liquidity	\$	10,654.6

Subsequent to September 30, 2025, we made additional net borrowings of \$405.0 million under the 2021 Credit Facility.

Summary cash flow information is set forth below (in millions):

	Nine Months Ended September 30,	
	2025	2024
Net cash provided by (used for):		
Operating activities	\$ 4,036.5	\$ 4,091.5
Investing activities (1)	(1,391.7)	771.3
Financing activities	(2,764.7)	(4,543.9)
Net effect of changes in foreign currency exchange rates on cash and cash equivalents, and restricted cash	112.5	(130.1)
Net (decrease) increase in cash and cash equivalents, and restricted cash	\$ (7.4)	\$ 188.8

(1) For the nine months ended September 30, 2024, includes \$2.2 billion of proceeds from the ATC TIPL Transaction.

We use our cash flows to fund our operations and investments in our business, including maintenance and improvements, communications site and data center construction, managed network installations and acquisitions. Additionally, we use our cash flows to make distributions, including distributions of our REIT taxable income to maintain our qualification for taxation as a REIT under the Internal Revenue Code of 1986, as amended (the “Code”). We may also periodically repay or repurchase our existing indebtedness or equity. We typically fund our international expansion efforts primarily through a combination of cash on hand, intercompany debt and equity contributions.

As of September 30, 2025, we had total outstanding indebtedness of \$37.5 billion, with a current portion of \$2.4 billion. During the nine months ended September 30, 2025, we generated sufficient cash flow from operations, together with

borrowings under our credit facilities, proceeds from our debt issuance and cash on hand, to fund our acquisitions, capital expenditures and debt service obligations, as well as our required distributions. We believe the cash generated by operating activities during the year ending December 31, 2025, together with our borrowing capacity under our credit facilities, will suffice to fund our required distributions, capital expenditures, debt service obligations (interest and principal repayments) and signed acquisitions.

We utilize notional cash pooling arrangements with financial institutions for cash management purposes. These arrangements allow for cash withdrawals based upon aggregate cash balances on deposit at the same financial institution.

Material Cash Requirements— There were no material changes to the Material Cash Requirements section of the 2024 Form 10-K.

As of September 30, 2025, we had \$1.7 billion of cash and cash equivalents held by our foreign subsidiaries. As of September 30, 2025, we had \$397.7 million of cash and cash equivalents held by our joint ventures, of which \$279.4 million was held by our foreign joint ventures. Certain foreign subsidiaries may pay us interest or principal on intercompany debt. Additionally, in the event that we repatriate funds from our foreign subsidiaries, we may be required to accrue and pay certain taxes.

Cash Flows from Operating Activities

The decrease in cash provided by operating activities for the nine months ended September 30, 2025 was primarily attributable to (i) a reduction in cash flows from ATC TIPL as a result of the sale in the third quarter of 2024 and (ii) an increase in cash required for working capital, partially offset by (y) decreases in cash paid for interest and cash paid for taxes and (z) an increase in our operating profit, including the impact of straight-line accounting.

Cash Flows from Investing Activities

Our significant investing activities during the nine months ended September 30, 2025 are highlighted below:

- We spent \$420.2 million for acquisitions,
- We spent \$1,128.8 million for capital expenditures, as follows (in millions):

Discretionary capital projects (1)	\$	624.3
Ground lease purchases (2)		132.6
Capital improvements and corporate expenditures (3)		132.2
Redevelopment		190.2
Start-up capital projects		49.5
Total capital expenditures	\$	1,128.8

(1) Includes the construction of 1,309 communications sites globally and approximately \$378.4 million of spend related to data center assets.

(2) Includes \$24.1 million of perpetual land easement payments reported in Deferred financing costs and other financing activities in the cash flows from financing activities in our condensed consolidated statements of cash flows.

(3) Includes \$3.5 million of finance lease payments reported in Repayments of notes payable, credit facilities, senior notes, secured debt, term loan and finance leases in the cash flows from financing activities in our condensed consolidated statements of cash flows.

We plan to continue to allocate our available capital, after satisfying our distribution requirements, among investment alternatives that meet our return on investment criteria, while maintaining our commitment to our long-term financial policies. Accordingly, we expect to continue to deploy capital through our annual capital expenditure program, including land purchases and new site and data center facility construction, and through acquisitions. We also regularly review our portfolios as to capital expenditures required to upgrade our infrastructure to our structural standards or address capacity, structural or permitting issues.

We expect that our 2025 total capital expenditures will be as follows (in millions):

Discretionary capital projects (1)	\$	865	to	\$	895
Ground lease purchases		200	to		220
Capital improvements and corporate expenditures		170	to		180
Redevelopment		320	to		350
Start-up capital projects		65	to		85
Total capital expenditures	\$	1,620	to	\$	1,730

(1) Includes the construction of approximately 1,850 to 2,450 communications sites globally and approximately \$600 million of anticipated spend related to data center assets.

Cash Flows from Financing Activities

Our significant financing activities were as follows (in millions):

	Nine Months Ended September 30,

(1) For the nine months ended September 30, 2024, includes repayments of the 825.0 million EUR unsecured term loan, as amended in December 2021, and the 10.0 billion INR unsecured term loan in India.

Securitizations

American Tower Secured Revenue Notes and Repayment of Series 2015-2 Notes—In May 2015, GTP Acquisition Partners I, LLC, one of our wholly owned subsidiaries, refinanced existing debt with cash on hand and proceeds from a private issuance (the “2015 Securitization”) of (i) \$350.0 million of American Tower Secured Revenue Notes, Series 2015-1, Class A, which were subsequently repaid on the June 2020 payment date, and (ii) \$525.0 million of the Series 2015-2 Notes. On the June 2025 payment date, we repaid \$525.0 million aggregate principal amount outstanding under the Series 2015-2 Notes, pursuant to the terms of the agreements governing such securities. The repayment was funded with borrowings under the 2021 Multicurrency Credit Facility and cash on hand. Following such repayment, no notes were outstanding under the 2015 Securitization.

Repayments of Senior Notes

Repayment of 2.950% Senior Notes—On January 14, 2025, we repaid \$650.0 million aggregate principal amount of the 2.950% Notes upon their maturity. The 2.950% Notes were repaid using cash on hand and borrowings under the 2021 Multicurrency Credit Facility. Upon completion of the repayment, none of the 2.950% Notes remained outstanding.

Repayment of 2.400% Senior Notes—On March 14, 2025, we repaid \$750.0 million aggregate principal amount of the 2.400% Notes upon their maturity. The 2.400% Notes were repaid using proceeds from the issuance of the 4.900% Notes and the 5.350% Notes (each as defined below). Upon completion of the repayment, none of the 2.400% Notes remained outstanding.

Repayment of 1.375% Senior Notes—On April 3, 2025, we repaid 500.0 million EUR aggregate principal amount of our 1.375% Notes upon their maturity. The 1.375% Notes were repaid using borrowings under the 2021 Multicurrency Credit Facility and cash on hand. Upon completion of the repayment, none of the 1.375% Notes remained outstanding.

Repayment of 4.000% Senior Notes—On May 30, 2025, we repaid \$750.0 million aggregate principal amount of our 4.000% Notes upon their maturity. The 4.000% Notes were repaid using borrowings under the 2021 Credit Facility and cash on hand. Upon completion of the repayment, none of the 4.000% Notes remained outstanding.

Repayment of 1.300% Senior Notes—On September 12, 2025, we repaid \$500.0 million aggregate principal amount of our 1.300% Notes upon their maturity. The 1.300% Notes were repaid using borrowings under the 2021 Credit Facility. Upon completion of the repayment, none of the 1.300% Notes remained outstanding.

Offerings of Senior Notes

4.900% Senior Notes and 5.350% Senior Notes Offering—On March 14, 2025, we completed a registered public offering of \$650.0 million aggregate principal amount of 4.900% senior unsecured notes due 2030 (the “Initial 4.900% Notes”) and \$350.0 million aggregate principal amount of 5.350% senior unsecured notes due 2035 (the “Initial 5.350% Notes”). The net proceeds from this offering were approximately \$988.9 million, after deducting commissions and estimated expenses. We used the net proceeds to repay the 2.400% Notes, to repay existing indebtedness under the 2021 Multicurrency Credit Facility and for general corporate purposes.

On September 16, 2025, we completed a registered public offering of \$200.0 million aggregate principal amount through a reopening of the Initial 4.900% Notes (the “Reopened 4.900% Notes” and, collectively with the Initial 4.900% Notes, the “4.900% Notes”) and \$375.0 million aggregate principal amount through a reopening of the Initial 5.350% Notes (the “Reopened 5.350% Notes” and, collectively with the Initial 5.350% Notes, the “5.350% Notes”). The net proceeds from this offering were approximately \$587.8 million, after deducting commissions and estimated expenses. We used the net proceeds to repay existing indebtedness under the 2021 Credit Facility and for general corporate purposes.

3.625% Senior Notes Offering—On May 30, 2025, we completed a registered public offering of 500.0 million EUR (approximately \$567.4 million at the date of issuance) aggregate principal amount of 3.625% senior unsecured notes due 2032 (the “3.625% Notes,” and, collectively with the 4.900% Notes and the 5.350% Notes, the “Notes”). The net proceeds from this offering were approximately 496.8 million EUR (approximately \$563.7 million at the date of issuance), after deducting commissions and estimated expenses. We used the net proceeds to repay existing indebtedness under the 2021 Multicurrency Credit Facility and for general corporate purposes.

The key terms of the Notes are as follows:

Senior Notes	Aggregate Principal Amount (in millions)	Issue Date and Interest Accrual Date	Maturity Date	Contractual Interest Rate	First Interest Payment	Interest Payments Due (1)	Par Call Date (2)
4.900% Notes	(3) \$ 850.0	March 14, 2025	March 15, 2030	4.900%	September 15, 2025	March 15 and September 15	February 15, 2030
5.350% Notes	(3) \$ 725.0	March 14, 2025	March 15, 2035	5.350%	September 15, 2025	March 15 and September 15	December 15, 2034
3.625% Notes	(4) \$ 567.4	May 30, 2025	May 30, 2032	3.625%	May 30, 2026	May 30	March 30, 2032

- (1) Accrued and unpaid interest on U.S. Dollar (“USD”) denominated notes is payable in USD semi-annually in arrears and will be computed from the issue date on the basis of a 360-day year comprised of twelve 30-day months. Interest on EUR denominated notes is payable in EUR annually in arrears and will be computed on the basis of the actual number of days in the period for which interest is being calculated and the actual number of days from and including the last date on which interest was paid on the notes, beginning on the issue date.
- (2) We may redeem the Notes at any time, in whole or in part, at a redemption price equal to 100% of the principal amount of the Notes plus a make-whole premium, together with accrued interest to the redemption date. If we redeem the Notes on or after the par call date, we will not be required to pay a make-whole premium.
- (3) The Initial 4.900% Notes and the Initial 5.350% Notes were issued on March 14, 2025. The Reopened 4.900% Notes and the Reopened 5.350% Notes were issued on September 16, 2025. The first interest payments made on September 15, 2025 related solely to the Initial 4.900% Notes and the Initial 5.350% Notes. The first interest payments on the Reopened 4.900% Notes and the Reopened 5.350% Notes are due on March 15, 2026.
- (4) The 3.625% Notes are denominated in EUR; dollar amounts represent the equivalent issuance date aggregate principal amount.

If we undergo a change of control and corresponding ratings decline, each as defined in the applicable supplemental indenture for the Notes, we may be required to repurchase all of the Notes at a purchase price equal to 101% of the aggregate principal amount of the Notes repurchased, plus accrued and unpaid interest (including additional interest, if any), up to but not including the repurchase date. The Notes rank equally in right of payment with all of our other senior

unsecured debt obligations and are structurally subordinated to all existing and future indebtedness and other obligations of our subsidiaries.

Each applicable supplemental indenture contains certain covenants that restrict our ability to merge, consolidate or sell assets and our (together with our subsidiaries’) ability to incur liens. These covenants are subject to a number of exceptions, including that we and our subsidiaries may incur certain liens on assets, mortgages or other liens securing indebtedness if the aggregate amount of indebtedness secured by such liens does not exceed 3.5x Adjusted EBITDA, as defined in the applicable supplemental indenture.

Bank Facilities

Amendments to Bank Facilities—On January 28, 2025, we amended our (i) \$6.0 billion senior unsecured multicurrency revolving credit facility, as amended and restated in December 2021, as further amended (the “2021 Multicurrency Credit Facility”) (ii) \$4.0 billion senior unsecured revolving credit facility, as amended and restated in December 2021, as further amended (the “2021 Credit Facility”) and (iii) \$1.0 billion unsecured term loan, as amended and restated in December 2021, as further amended (the “2021 Term Loan”).

These amendments, among other things,

- i. extend the maturity dates of the 2021 Multicurrency Credit Facility and the 2021 Credit Facility to January 28, 2028 and January 28, 2030, respectively;
- ii. extend the maturity date of the 2021 Term Loan to January 28, 2028; and
- iii. update the Applicable Margins (as defined in the loan agreements).

2021 Multicurrency Credit Facility—During the nine months ended September 30, 2025, we borrowed an aggregate of \$2.4 billion, including 492.0 million EUR (\$529.1 million as of the borrowing date) and repaid an aggregate of \$2.0 billion, including 492.0 million EUR (\$549.9 million as of the repayment date) of revolving indebtedness under the 2021 Multicurrency Credit Facility. We used the borrowings to repay outstanding indebtedness, including the 2.950% Notes, the 1.375% Notes and the Series 2015-2 Notes, and for general corporate purposes. We currently have \$6.3 million of undrawn letters of credit and maintain the ability to draw down and repay amounts under the 2021 Multicurrency Credit Facility in the ordinary course.

2021 Credit Facility—During the nine months ended September 30, 2025, we borrowed an aggregate of \$2.9 billion and repaid an aggregate of \$2.1 billion of revolving indebtedness under the 2021 Credit Facility. We used the borrowings to repay outstanding indebtedness, including the 4.000% Notes and the 1.300% Notes, and for general corporate purposes. We currently have \$29.8 million of undrawn letters of credit and maintain the ability to draw down and repay amounts under the 2021 Credit Facility in the ordinary course.

As of September 30, 2025, the key terms under the 2021 Multicurrency Credit Facility, the 2021 Credit Facility and the 2021 Term Loan, were as follows:

Bank Facility	Outstanding Principal Balance (\$ in millions)	Maturity Date	SOFRA or EURIBOR borrowing interest rate range (1)	Base rate borrowing interest rate range (1)	Current margin over SOFR or EURIBOR and the base rate, respectively
2021 Multicurrency Credit Facility	(2) \$ 445.0	January 28, 2028 (3)	0.750% - 1.375%	0.000% - 0.375%	0.875% and 0.000%
2021 Credit Facility	(2) 815.0	January 28, 2030 (3)	0.750% - 1.375%	0.000% - 0.375%	0.875% and 0.000%
2021 Term Loan	(2) 1,000.0	January 28, 2028	0.750% - 1.375%	0.000% - 0.375%	0.875% and 0.000%

(1) Represents interest rate above: (a) Secured Overnight Financing Rate (“SOFR”) for SOFR based borrowings, (b) Euro Interbank Offer Rate (“EURIBOR”) for EURIBOR based borrowings and (c) the defined base rate for base rate borrowings, in each case based on our debt ratings.

(2) Currently borrowed at SOFR.

(3) Subject to two optional renewal periods.

We must pay a quarterly commitment fee on the undrawn portion of each of the 2021 Multicurrency Credit Facility and the 2021 Credit Facility. The commitment fee for the 2021 Multicurrency Credit Facility and the 2021 Credit Facility ranges from 0.080% to 0.200% per annum, based upon our debt ratings, and is currently 0.100%.

The 2021 Multicurrency Credit Facility, the 2021 Credit Facility and the 2021 Term Loan and the associated loan agreements (the “Bank Loan Agreements”) do not require amortization of principal and may be paid prior to maturity in whole or in part at our option without penalty or premium. We have the option of choosing either a defined base rate, SOFR or EURIBOR as the applicable base rate for borrowings under these bank facilities.

Each Bank Loan Agreement contains certain reporting, information, financial and operating covenants and other restrictions (including limitations on additional debt, guaranties, sales of assets and liens) with which we must comply. Failure to comply with these financial and operating covenants could not only prevent us from being able to borrow additional funds under the revolving credit facilities, but may constitute a default, which could result in, among other things, the amounts outstanding under the applicable agreement, including all accrued interest and unpaid fees, becoming immediately due and payable.

Bangladesh Term Loan—In March 2025, we entered into a 400.0 million Bangladeshi Taka (“BDT”) (approximately \$3.3 million) term loan with a maturity date that is eight years from the date of the first draw thereunder (the “Bangladesh Term Loan”). On March 24, 2025, we borrowed 150.0 million BDT (approximately \$1.2 million) under the Bangladesh Term Loan. The Bangladesh Term Loan bears interest at 13.50% per annum, subject to quarterly resets. Interest is payable quarterly. Any outstanding principal and accrued but unpaid interest will be due and payable in full at maturity. The Bangladesh Term Loan does not require amortization of principal and may be paid prior to maturity in whole or in part at our option without penalty or premium.

CoreSite DE1 Note—On April 1, 2025, in connection with our acquisition of a multi-tenant data center facility in Denver, Colorado, in which we previously leased space (“DE1”), we entered into an agreement to pay \$5.0 million of purchase price to the seller in monthly installments through March 31, 2028 (the “CoreSite DE1 Note”). The CoreSite DE1 Note accrues interest at the prime rate as announced by Bank of America, N.A plus 200 basis points. As of September 30, 2025, the interest rate was 9.50% per annum. Interest is payable monthly in arrears. Any outstanding principal and accrued but unpaid interest will be due and payable in full at maturity. The CoreSite DE1 Note may be paid prior to maturity in whole or in part at our option without penalty or premium, provided that if such prepayment is made prior to April 1, 2027, we are required to pay any additional interest which would have accrued under the CoreSite DE1 Note in the ordinary course through April 1, 2027.

Stock Repurchase Programs—In March 2011, our Board of Directors approved a stock repurchase program, pursuant to which we are authorized to repurchase up to \$1.5 billion of our common stock (the “2011 Buyback”). In December 2017, our Board of Directors approved an additional stock repurchase program, pursuant to which we are authorized to repurchase up to \$2.0 billion of our common stock (the “2017 Buyback,” and, together with the 2011 Buyback, the “Buyback Programs”).

During the nine months ended September 30, 2025, there were no repurchases under either of the Buyback Programs. Subsequent to September 30, 2025, through October 21, 2025, we repurchased 151,133 shares of our common stock for an aggregate of approximately \$28.0 million, including commissions and fees, under both the 2011 Buyback and the 2017 Buyback. We have no amounts remaining under the 2011 Buyback.

We expect to continue managing the pacing of the remaining approximately \$2.0 billion under the 2017 Buyback in response to general market conditions and other relevant factors. We expect to fund any further repurchases of our common stock through a combination of cash on hand, cash generated by operations and borrowings under our credit facilities. Repurchases under the 2017 Buyback are subject to, among other things, us having available cash to fund the repurchases.

Sales of Equity Securities—We receive proceeds from sales of our equity securities pursuant to our employee stock purchase plan and upon exercise of stock options granted under our equity incentive plan. During the nine months ended September 30, 2025, we received an aggregate of \$34.6 million in proceeds upon exercises of stock options and sales pursuant to our employee stock purchase plan.

Future Financing Transactions—We regularly consider various options to obtain financing and access the capital markets, subject to market conditions, to meet our funding needs. Such capital raising alternatives, in addition to those noted above, may include amendments and extensions of our bank facilities, entry into new bank facilities, transactions with private equity funds or partnerships, additional senior note and equity offerings and securitization transactions. No assurance can be given as to whether any such financing transactions will be completed or as to the timing or terms thereof.

Distributions—As a REIT, we must annually distribute to our stockholders an amount equal to at least 90% of our REIT taxable income (determined before the deduction for distributed earnings and excluding any net capital gain). Generally, we have distributed, and expect to continue to distribute, all or substantially all of our REIT taxable income after taking into consideration our utilization of net operating losses (“NOLs”). We have distributed an aggregate of approximately \$22.9 billion to our common stockholders, including the dividend paid in October 2025, primarily classified as ordinary income that may be treated as qualified REIT dividends under Section 199A of the Code for taxable years beginning before 2026.

During the nine months ended September 30, 2025, we paid \$5.02 per share, or \$2.3 billion, to our common stockholders of record. In addition, we declared a distribution of \$1.70 per share, or \$796.1 million, paid on October 20, 2025 to our common stockholders of record at the close of business on September 30, 2025.

The amount, timing and frequency of future distributions will be at the sole discretion of our Board of Directors and will depend on various factors, a number of which may be beyond our control, including our financial condition and operating cash flows, the amount required to maintain our qualification for taxation as a REIT and reduce any income and excise taxes that we otherwise would be required to pay, limitations on distributions in our existing and future debt and preferred equity instruments, our ability to utilize NOLs to offset our distribution requirements, limitations on our ability to fund distributions using cash generated through our taxable REIT subsidiaries and other factors that our Board of Directors may deem relevant.

We accrue distributions on unvested restricted stock units, which are payable upon vesting. As of September 30, 2025, the amount accrued for distributions payable related to unvested restricted stock units was \$18.5 million. During the nine months ended September 30, 2025, we paid \$12.1 million of distributions upon the vesting of restricted stock units.

Factors Affecting Sources of Liquidity

As discussed in the “Liquidity and Capital Resources” section of the 2024 Form 10-K, our liquidity depends on our ability to generate cash flow from operating activities, borrow funds under our credit facilities and maintain compliance with the contractual agreements governing our indebtedness. We believe that the debt agreements discussed below represent our material debt agreements that contain covenants, our compliance with which would be material to an investor’s understanding of our financial results and the impact of those results on our liquidity.

Restrictions Under Loan Agreements Relating to Our Credit Facilities—Each Bank Loan Agreement contains certain financial and operating covenants and other restrictions applicable to us and our subsidiaries that are not designated as unrestricted subsidiaries on a consolidated basis. These restrictions include limitations on additional debt, distributions and dividends, guaranties, sales of assets and liens. The Bank Loan Agreements also contain covenants that establish financial tests with which we and our restricted subsidiaries must comply related to total leverage and senior secured leverage, as set forth in the table below. As of September 30, 2025, we were in compliance with each of these covenants.

	Ratio (1)	Compliance Tests For The 12 Months Ended September 30, 2025 (\$ in billions)	
		Additional Debt Capacity Under Covenants (2)	Capacity for Adjusted EBITDA Decrease Under Covenants (3)
Consolidated Total Leverage Ratio	Total Debt to Adjusted EBITDA ≤ 6.00:1.00	~ 5.1	~ 0.9
Consolidated Senior Secured Leverage Ratio	Senior Secured Debt to Adjusted EBITDA ≤ 3.00:1.00	~ 19.4 (4)	~6.5 (4)

(1) Each component of the ratio as defined in the applicable loan agreement.

(2) Assumes no change to Adjusted EBITDA.

(3) Assumes no change to our debt levels.

(4) Effectively, however, additional Senior Secured Debt under this ratio would be limited to the capacity under the Consolidated Total Leverage Ratio.

The Bank Loan Agreements also contain reporting and information covenants that require us to provide financial and operating information to the lenders within certain time periods. If we are unable to provide the required information on a timely basis, we would be in breach of these covenants.

Failure to comply with the financial maintenance tests and certain other covenants of the Bank Loan Agreements could not only prevent us from being able to borrow additional funds under the revolving credit facilities, but may also

constitute a default under these credit facilities, which could result in, among other things, the amounts outstanding, including all accrued interest and unpaid fees, becoming immediately due and payable. If this were to occur, we may not have sufficient cash on hand to repay such indebtedness. The key factors affecting our ability to comply with the debt covenants described above are our financial performance relative to the financial maintenance tests defined in the Bank Loan Agreements and our ability to fund our debt service obligations. Based upon our current expectations, we believe our operating results during the next 12 months will be sufficient to comply with these covenants.

Restrictions Under Agreements Relating to the Trust Securitizations—The indenture and related supplemental indenture governing the loan agreement related to the securitization transactions completed in March 2018 (the “2018 Securitization”) and March 2023 (the “2023 Securitization”) and, together with the 2018 Securitization, the “Trust Securitizations”) (the “Securitization Loan Agreements”) include certain financial ratios and operating covenants and other restrictions customary for transactions subject to rated securitizations. Among other things, American Tower Asset Sub, LLC and American Tower Asset Sub II, LLC (together, the “AMT Asset Subs”) are prohibited from incurring other indebtedness for borrowed money or further encumbering their assets, subject to customary carve-outs for ordinary course trade payables and permitted encumbrances (as defined in the applicable agreements).

Under the Securitization Loan Agreements, amounts due will be paid from the cash flows generated by the assets securing the nonrecourse loan that secures the Secured Tower Revenue Securities, Series 2018-1, Subclass A (the “Series 2018-1A Securities”), the Secured Tower Revenue Securities, Series 2018-1, Subclass R (the “Series 2018-1R Securities”) and, together with the Series 2018-1A Securities, the “2018 Securities”), the Secured Tower Revenue Securities 2023-1, Subclass A (the “Series 2023-1A Securities”), the Secured Tower Revenue Securities, Series 2023-1, Subclass R (the “Series 2023-1R Securities”) and, together with the Series 2023-1A Securities, the “2023 Securities”) issued in the Trust Securitizations (the “Loan”), as applicable, which must be deposited into certain reserve accounts, and thereafter distributed, solely pursuant to the terms of the applicable agreement. On a monthly basis, after paying all required amounts under the applicable agreement, subject to the conditions described in the table below, the excess cash flows generated from the operation of these assets are released to the AMT Asset Subs, which can then be distributed to us for use. As of September 30, 2025, \$90.0 million held in such reserve accounts was classified as restricted cash.

Certain information with respect to the Trust Securitizations is set forth below. The debt service coverage ratio (“DSCR”) is generally calculated as the ratio of the net cash flow (as defined in the applicable agreement) to the amount of interest, servicing fees and trustee fees required to be paid over the succeeding 12 months on the principal amount of the Loan that will be outstanding on the payment date following such date of determination.

Issuer or Borrower	Notes/Securities Issued	Conditions Limiting Distributions of Excess Cash		Excess Cash Distributed During the Three Months Ended September 30, 2025 (in millions)	DSCR as of September 30, 2025	Capacity for Decrease in Net Cash Flow Before Triggering Cash Trap DSCR (1) (in millions)	Capacity for Decrease in Net Cash Flow Before Triggering Minimum DSCR (1) (in millions)	
		Cash Trap DSCR	Amortization Period					
Trust Securitizations	AMT Asset Subs	Secured Tower Revenue Securities, Series 2023-1, Subclass A, Secured Tower Revenue Securities, Series 2023-1, Subclass R, Secured Tower Revenue Securities, Series 2018-1, Subclass A and Secured Tower Revenue Securities, Series 2018-1, Subclass R	1.30x, Tested Quarterly (2)	(3)(4)	\$442.1	6.51x	\$469.6	\$483.2

(1) Based on the net cash flow of the issuer or borrower as of September 30, 2025 and the expenses payable over the next 12 months on the Loan.

(2) If the DSCR were equal to or below 1.30x (the “Cash Trap DSCR”) for any quarter, all cash flow in excess of amounts required to make debt service payments, fund required reserves, pay management fees and budgeted operating expenses and make other payments required under the applicable transaction documents, referred to as excess cash flow, will be deposited into a reserve account (the “Cash Trap Reserve Account”)

instead of being released to the applicable issuer or borrower. Once triggered, a Cash Trap DSCR condition continues to exist until the DSCR exceeds the Cash Trap DSCR for two consecutive calendar quarters.

- (3) An amortization period commences if the DSCR is equal to or below 1.15x (the “Minimum DSCR”) at the end of any calendar quarter and continues to exist until the DSCR exceeds the Minimum DSCR for two consecutive calendar quarters.
- (4) An amortization period exists if the outstanding principal amount has not been paid in full on the applicable anticipated repayment date and continues to exist until the principal has been repaid in full.

A failure to meet the noted DSCR tests could prevent the AMT Asset Subs from distributing excess cash flow to us, which could affect our ability to fund our capital expenditures, including tower construction and acquisitions, and to meet REIT distribution requirements. During an “amortization period,” all excess cash flow and any amounts then in the applicable Cash Trap Reserve Account would be applied to pay the principal of the Loan on each monthly payment date, and so would not be available for distribution to us. Further, additional interest will begin to accrue with respect to the Loan from and after the anticipated repayment date at a per annum rate determined in accordance with the applicable agreement. Furthermore, if the AMT Asset Subs were to default on the Loan, the trustee may seek to foreclose upon or otherwise convert the ownership of all or any portion of the 5,024 broadcast and wireless communications towers and related assets that secure the Loan, in which case we could lose those sites and their associated revenue.

As discussed above, we use our available liquidity and seek new sources of liquidity to fund capital expenditures, future growth and expansion initiatives, satisfy our distribution requirements and repay or repurchase our debt. If we determine that it is desirable or necessary to raise additional capital, we may be unable to do so, or such additional financing may be prohibitively expensive or restricted by the terms of our outstanding indebtedness. Additionally, as further discussed under the caption “Risk Factors” in Item 1A of the 2024 Form 10-K, market volatility and disruption caused by inflation, high interest rates and supply chain disruptions may impact our ability to raise additional capital through debt financing activities or our ability to repay or refinance maturing liabilities, or impact the terms of any new obligations. If we are unable to raise capital when our needs arise, we may not be able to fund capital expenditures, future growth and expansion initiatives, satisfy our REIT distribution requirements and debt service obligations, or refinance our existing indebtedness.

In addition, our liquidity depends on our ability to generate cash flow from operating activities. As set forth under the caption “Risk Factors” in Item 1A of the 2024 Form 10-K, we derive a substantial portion of our current and projected future revenue from a small number of customers and, consequently, a failure by a significant customer to perform its contractual obligations to us could adversely affect our cash flow and liquidity.

For more information regarding the terms of our outstanding indebtedness, please see note 8 to our consolidated financial statements included in the 2024 Form 10-K.

Critical Accounting Policies and Estimates

Management’s discussion and analysis of financial condition and results of operations are based upon our consolidated and condensed consolidated financial statements, which have been prepared in accordance with GAAP. The preparation of these financial statements requires us to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, as well as related disclosures of contingent assets and liabilities. We evaluate our policies and estimates on an ongoing basis, including those related to assets held for sale, discontinued operations, accounting and impairment of long-lived assets, revenue recognition, rent expense and income taxes, as further discussed in the 2024 Form 10-K. Management bases its estimates on historical experience and various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying amounts of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

We have reviewed our policies and estimates to determine our critical accounting policies for the nine months ended September 30, 2025. We have made no material changes to the critical accounting policies described in the 2024 Form 10-K.

Accounting Standards Update

For a discussion of recent accounting standards updates, see note 1 to our consolidated and condensed consolidated financial statements included in this Quarterly Report.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Interest Rate Risk

Changes in interest rates can cause interest charges to fluctuate on our variable rate debt. Variable rate debt as of September 30, 2025 consisted of \$445.0 million under the 2021 Multicurrency Credit Facility, \$815.0 million under the 2021 Credit Facility and \$1.0 billion under the 2021 Term Loan. A 10% increase in current interest rates would result in an additional \$8.8 million of interest expense for the nine months ended September 30, 2025.

Foreign Currency Risk

We are exposed to market risk from changes in foreign currency exchange rates primarily in connection with our foreign subsidiaries and joint ventures internationally. Any transaction denominated in a currency other than the U.S. Dollar is reported in U.S. Dollars at the applicable exchange rate. All assets and liabilities are translated into U.S. Dollars at exchange rates in effect at the end of the applicable fiscal reporting period and all revenues and expenses are translated at average rates for the period. The cumulative translation effect is included in equity as a component of Accumulated other comprehensive loss. We may enter into additional foreign currency financial instruments in anticipation of future transactions to minimize the impact of foreign currency exchange rate fluctuations. For the nine months ended September 30, 2025, 31% of our revenues and 39% of our total operating expenses were denominated in foreign currencies.

As of September 30, 2025, we have incurred intercompany debt that is not considered to be permanently reinvested and similar unaffiliated balances that were denominated in a currency other than the functional currency of the subsidiary in which it is recorded. As this debt had not been designated as being a long-term investment in nature, any changes in the foreign currency exchange rates will result in unrealized gains or losses, which will be included in our determination of net income. An adverse change of 10% in the underlying exchange rates of our unsettled intercompany debt and similar unaffiliated balances would result in \$34.4 million of unrealized losses that would be included in Other income (expense) in our consolidated statements of operations for the nine months ended September 30, 2025. As of September 30, 2025, we have 7.5 billion EUR (approximately \$8.8 billion) denominated debt outstanding, of which approximately 4.7 billion EUR (approximately \$5.5 billion) is designated as a non-derivative net investment hedge. An adverse change of 10% in the underlying exchange rates of our outstanding EUR debt not designated as a non-derivative net investment hedge would result in \$0.4 billion of foreign currency losses that would be included in Other expense in our consolidated statements of operations for the nine months ended September 30, 2025.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

We have established disclosure controls and procedures designed to ensure that material information relating to us, including our consolidated subsidiaries, is made known to the officers who certify our financial reports and to other members of senior management and the Board of Directors.

Our management, with the participation of our principal executive officer and principal financial officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act), as of the end of the period covered by this Quarterly Report. Based on this evaluation, our principal executive officer and principal financial officer concluded that these disclosure controls and procedures were effective as of September 30, 2025 and designed to ensure that the information required to be disclosed in our reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the requisite time periods specified in the applicable rules and forms, and that it is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) during the fiscal quarter ended September 30, 2025 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We periodically become involved in various claims and lawsuits that are incidental to our business. While our management, after consultation with counsel, currently believes the ultimate outcome of these legal proceedings, individually and in the aggregate, will not have a material adverse impact on our consolidated financial position, results of operations or liquidity, litigation is subject to inherent uncertainties. Were an unfavorable ruling to occur, there exists the possibility of a material adverse impact on our financial condition and results of operations.

AT&T Mexico Dispute

We are currently engaged in a legal dispute (the “Arbitration”) with one of our customers in Mexico, AT&T Comunicaciones Digitales, S. de R.L. de C.V. and related entities (collectively, “AT&T Mexico”). AT&T Mexico, which represented approximately \$300 million of tenant revenue in 2024, is challenging the calculation of the monthly lease amount established under our Master Lease Agreement with AT&T Mexico (the “AT&T Mexico MLA”), as well as certain other provisions of the AT&T Mexico MLA, seeking rent abatement both retroactively and prospectively, and had been withholding tower rents since the start of 2025. We incurred approximately \$19 million of reserves through the third quarter of 2025, and expect approximately \$30 million of reserves for the full year, related to this customer. We expect to record future reserves until the Arbitration is settled. We believe we have meritorious defenses to the claims raised in this Arbitration, are vigorously defending the full enforceability of the AT&T Mexico MLA and remain confident in the terms and conditions of the AT&T Mexico MLA. The Arbitration is scheduled for a hearing in August 2026.

On September 23, 2025, we and AT&T Mexico reached an agreement pursuant to which AT&T Mexico will remit payment of the majority of the withheld tower rents and will resume monthly payments of the majority of its owed tower rents going forward. The remainder of the outstanding receivables and the future monthly tower rent amounts not remitted directly to us will be deposited into an irrevocable escrow account, overseen by an independent trustee, to be released in accordance with a final ruling in the Arbitration or by mutual consent of us and AT&T Mexico.

DISH Dispute

On September 24, 2025, one of our U.S. customers, DISH Wireless L.L.C., a subsidiary of DISH Network Corporation (“DISH”), delivered a notice purporting to be excused from its contractual obligations under our Strategic Collocation Agreement entered into in March 2021 (the “DISH SCA”). Despite this notice, to date, DISH has continued to make payments to us under the DISH SCA. We remain confident that DISH has not been excused from its obligations under the DISH SCA, and that the DISH SCA remains in full force and effect. As a result, on October 20, 2025, we filed a complaint in the U.S. District Court for the District of Colorado seeking a declaratory judgment that DISH has not been excused from its obligations under the DISH SCA, that the DISH SCA remains in full force and effect, and that DISH remains required to perform all of its obligations under the DISH SCA.

CERTIFICATION OF PRINCIPAL FINANCIAL OFFICER PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, Rodney M. Smith, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of American Tower Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
